Rule of Hapsburg Totters; Kaiser's Abdication Certain

PLANS FOR AN UNMONARCHIAL STATE DRAWN UP IN VIENNA

Victor Adler, Socialist, is Named Foreign Minister of New Austrian Government. Revolutionary Spirit is Growing. War Cabinet is Discussing Abdication of The Kaiser, According to Berlin Newspapers.

GERMAN INTERNAL SITUATION IS WORSE

(By United Press)

Copenhagen, Nov. 1.—The war cabinet is discussing abdication of the kaiser and that Dr. Delbrec, chief of the privy council, will present the abdication document to Wilhelm, according to Berlin newspapers.

Copenhagen, Nov. 1.—The national council after a consultation with a delegation of soldiers and officers, decided to establish a provisional workmen's and soldiers' council and drew up plans for a new unmonarchical state, according to a Vienna dispatch filed at midnight.

Victor Adler, socialist, has been named foreign minister. Other socialists have been named to high positions.

The revolutionary government is growing throughout the country. Count Karolyi, head of the national council, has wired Berlin papers that the Budapest garrison and police have acknowledged the new government. The population is jubilant.

Copenhagen, Nov. 1.—Count Tisza, former Hungarian premier and leader of the Hungarian government party, has been murdered, according to a Vienna dispatch today. He opposed Count Karolyi in the establishment of a separate Hungarian state.

Count Tisza was regarded as one of the sinister statesmen of the dual monarchy. He exerted a strong influence over the late emperor Charles Joseph. He is reported to have written the dictatorial note to Serbia on the murder of the Austrian grand duke, which caused the war.

Paris, Nov. 1.—Members of the inter-allied diplomatic council believe the Hapsburg dynasty is ended and that an Austrian republic is likely to be formed.

The kaiser's abdication is also considered to be inevitable, the date only being uncertain.

Confidential advices to the conference suggest that the German internal situation is likely to force his abdication.

Actions equivalent to the surrender of the German and Austrian high military commanders, it is believed certain will be included in the armistice terms.

The surrender of Turkey to the British indicates that the allies will certainly force the enemy literally to wave the white flag in France and Italy.

Revolution Starts In Vienna.

London, Nov. 1.—A revolution has started in Vienna, reports reaching here today indicate.

The national government in Austria has assumed full power, it was announced by Herr Renner, socialist leader, according to a dispatch from Vienna today.

Crowds outside the building where the national council was in session cheered the announcement and waved red banners.

Austrian marines have revolted, seizing the warships at Pola and placing them at the disposal of the Hungarian and the Jugo-Slavs, it was reported from Copenhagen.

Soldiers returning from the front, bearing red flags, joined crowds of workmen parading the streets, shouting "Down with the Hapsburgs."

A provisional workmen's and soldiers' council has been formed.

FORGERY CHARGE QUASHED

John Gantner is Discharged by Judge Sparks in Circuit Court

A motion to quash the indictment against John Gantner, charging forgery, was sustained, with exceptions to the state, and the defendant was discharged, in the circuit court by Judge Sparks yesterday. Mr. Gantner was charged with endorsing a check made payable to another person, and drawing the money. The check was issued by Voorhees Cuyatt, then democratic county chairman, to a girl who was employed in democratic headquarters. The motion to quash was filed September 9 and the decision not made until yesterday.

CALL FOR EIGHT MEN IS RECEIVED

Will be Entrained for Camp Wadsworth, S. C. During 5-Day Period Beginning Nov. 5.

NO RELATION TO OLD CALL

Only Class One Registrants of June 5, 1917, Class Called—33 Are Classified Thursday.

A call for eight white registrants qualified for general military service, to be inducted into the military service during the five-day period beginning November 5, was received by the county army selection board today.

They will be sent to Camp Wadsworth, Spartanburg, South Carolina. A quota of twenty-three men was selected last month to be sent to this same camp, but the call was suspended because of the Spanish influenza epidemic. The call today has no bearing on the earlier call. The registrants selected to fill the call of last month will be held in readiness to be entrained whenever an order comes to send them to camp.

The eight men for today's call must be selected in sequence of order numbers, but no registrants of the September 12 class may be sent. These instructions, it is presumed, is for the purpose of using up registrants in the June 5, 1917 class before the new class is entered. This county has more than enough class one men in the June 5 class to fill the call.

The board announced today that Ralph Nipp had applied for induction under the call received yesterday for limited service men to be trained in the motor transport corps for overseas service, at Newport News, Va.

It is promised that men accepted under this call will be sent across the water in ninety days. The physical examination papers of limited service men applying under this call have to be sent to the commanding officer at Newport News, and if he thinks they are physically qualified for the service, he will send competent orders for their induction.

The board is in receipt of the rulings in fifteen cases by the district board. Six of the eight put in class one were refused deferred classification on agricultural claims. The other two were denied appeals from the decision of the local board.

Five were placed in class two, two in class three and one in class four on account of agricultural claims.

MRS. MARIA LINDALE DIES

Expires This Morning at 8 O'clock at Her Home in Glenwood.

Mrs. Maria Lindale, wife of John W. Lindale, Sr., age 84, died at her home in Glenwood, this morning at 8 o'clock. The deceased was born in New Jersey, May 15, 1834. Mr. and Mrs. Lindale were united in marriage in Philadelphia, Pa., November 22, 1854 and came to Indiana, where they since resided. She is survived by her husband, and two children, John W. Lindale, Jr., living near Glenwood, and Mrs. A. G. Putman of Indianapolis.

The funeral services will be held at the house Sunday afternoon at 2 o'clock with burial in the cemetery north of Orange.

BAN WILL BE OFF AFTER SATURDAY

Dr. E. I. Wooden Informed Restrictions Regarding Public Meetings Will Be Removed.

TALKS WITH DR. J. N. HURTY

Business, Religious and Social Life Of County Will Resume Normal Course Sunday

The business, religious and social life of Rush county will resume its normal course Sunday morning after an interruption of four weeks on account of an epidemic of Spanish influenza.

Dr. E. I. Wooden, county health officer, was informed by telephone this morning by Dr. J. N. Hurty, secretary of the state board of health, that it would be permissible to lift the ban on all public meetings Saturday midnight.

Dr. J. B. Kinsinger, secretary of the city board of health, consulted with Dr. Wooden and they agreed that conditions in Rushville were such as to permit the lifting of the ban here.

The situation continued to show decided improvement today. No new cases had been reported up to noon and only seven were reported in the whole county yesterday, bringing the total number reported in the county during the epidemic up to 644. Five of the new case yesterday were in Rushville, three being in one family, one in a family where the malady already existed and one in a home where the disease had not appeared.

Health authorities warned that the same precautions should be taken as when the ban was in effect. People with cold, and people sneezing and coughing will not be permitted in public gatherings at all. They are warned to stay away because there is danger of them being excluded from places where crowds are congregated.

The death of Miss Mable Beecraft late yesterday afternoon brought the total fatalities in the county during the epidemic up to fourteen. All other patients who were seriously sick are reported to be improving. The lifting of the ban means that the churches will be open as usual on Sunday, after having been closed for three Sundays, and that the schools and theaters will reopen Monday. Ministers of the county urged a large attendance Sunday because of the loss of time, but asked

AUSTRIAN FRONT IN THE GRAPPA SECTOR COLLAPSES COMPLETELY

Impossible to Estimate Number of Prisoners Who Are Coming Down From the Mountains in Flocks. Italian Troops Enter Belluno, 25 Miles Beyond the Piave. Additional Penetration of Two Miles by British.

THOUSANDS OF PRISONERS TAKEN

(By United Press)

Rome, Nov. 1.—Italian troops have entered Belluno, 25 miles beyond the Piave, according to battlefield dispatches received here today.

The Austrians are evacuating Udine. The Italians are completely overrunning the Venetian plains.

Rome, Nov. 1.—The Austrian front in the Grappa sector has completely collapsed, the war office announced today. It is impossible to estimate the number of prisoners, who are coming down from the mountains in flocks. All of the enemy artillery has been captured.

British troops reached the Livenza river on a front of four miles after occupying Sacile.

The Austrians are falling back rapidly on a wide front.

With the British Armies, Nov. 1.—British troops advanced in two days' fighting to within less than three miles of Audarde. The Escaut was crossed at Kerkhove, and British gains are being exploited beyond the river.

An additional penetration of nearly two miles has been made, making the total advance since the attack began yesterday, nearly four miles. One thousand additional prisoners, three guns and four motor ambulances have been captured.

EACH HAS MISSION IN THE WORLD WAR

Activities of Seven Organizations United in Campaign for Funds Are Briefly Outlined.

FOR WELFARE OF SOLDIERS

Purpose of Each is to Make a "Home Away From Home" for the Fighting Men

The seven organizations which have combined for the United War Work Campaign represent the seven doors open to the soldier that offer him home comforts and cheer. Every one of these seven war work agencies has placed all its resources and facilities at the disposal of our fighting men to make for them a "home away from home". In no sense of the word do they lose their individualities in combining for the big drive, but are merging all their efforts to raise this stupendous sum for the welfare of our soldiers. The actual solicitation of funds will be carried on from November 11 to November 18. Director General John R. Mott has asked that the original national quota of \$170,500,000 be over-subscribed to reach a fund of \$250,000,000. Indiana's minimum quota

(Continued on Page 10)

Italian Continue Wedge

With the Italian Armies in the Field, Nov. 1.—The Italians continue to drive a wedge into the Austrian mountain positions on the northern portions of the front which constitute an ever increasing menace to their communications in the Trentino regions.

British Deliver Attack

London, Nov. 1.—The British suddenly attacked south of Valenciennes this morning, it was announced by Field Marshal Haig.

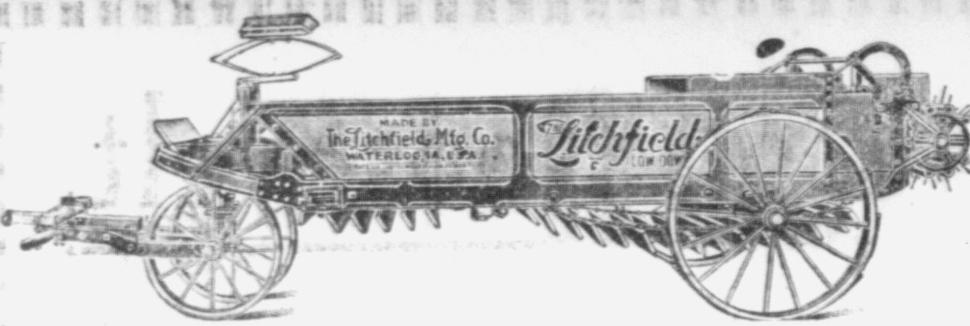

Good progress on this front was reported.

DISMISSED BY PLAINTIFF

The case of the Citizens Natural Gas, Oil & Water company, of Shellyville, against the state public service commission, which was sent to Rush circuit court on a change of venue, was dismissed in the circuit court yesterday on motion of the plaintiff at the plaintiff's costs. The case was filed because the commission refused the plaintiff the right to build an artificial gas plant in Shellyville.

MONDAY IS LAST DAY

County tax collections yesterday approximately \$80,000 due on the fall installment which will have to be paid by Monday night. The treasurer's office will be open tonight and tomorrow night. Rushville people are asked not to pay their taxes Saturday when farmers generally pay, to prevent a rush at the office.

**Repairing a Manure Spreader.**

One of the strong inducements in favor of our handling and pushing the sale of the "RUSHVILLE SPECIAL" Manure Spreader is the REPAIR question. Sometimes our customers think we make a lot of money on repairs—a good deal more than we do. But we like to keep away from the repair question if we can, and in selling a machine, if we could get one that would never have a repair on it until it was entirely and completely worn out, this would be the kind we would sell every time.

Our manure spreader which we have been talking to you about and which is proving so effective in the field, comes as near being repair proof as any machine we ever saw. The reason it requires little or no repairs is the very same reason that gives it such light draft and it is because of this reason that it is sold under a FIVE YEAR GUARANTEE.

The machinery runs so light and there is so little friction that the team does not apply power enough to the machine to wear it out. If it doesn't wear out it doesn't need repairs. This is our simple analysis and it is a true one.

Some machines simply tear themselves to pieces and are constantly in the repair shop or being tinkered up in one way or another, not because the owners abuse or misuse or are neglectful of them, but simply because they won't stand the racket. We don't have to expert our spreader, don't have to look after it—it takes care of itself and we eliminate the repair question. Come and see it.

C. H. Tompkins

RUSHVILLE, INDIANA.

**RETURN LOAD BUREAUS
OF GREAT ASSISTANCE**

Many Communities Adopting New Way of Transportation as War Measure.

The Chamber of Commerce of the United States, which includes the live commercial organizations of practically every city of importance in the country, has issued to its members the following bulletin on Motor Truck Transportation, specifically dealing with a Return Load Bureau:

The motor truck is a part of the transportation equipment in every community. Its use more nearly to capacity will help solve local problems.

More complete use means loads both ways. A motor truck usually carries a good load to its destination whether the destination is in the same community or in another city. Too often, however, the truck makes the return trip with no load. Every time this occurs there is waste of at least half the capacity of a truck to do work in transportation.

GEORGE S. WINDERS.

Of the Indianapolis Chamber of Commerce, who is putting into execution the most effective plans for making the Return Load Bureau of greatest usefulness.

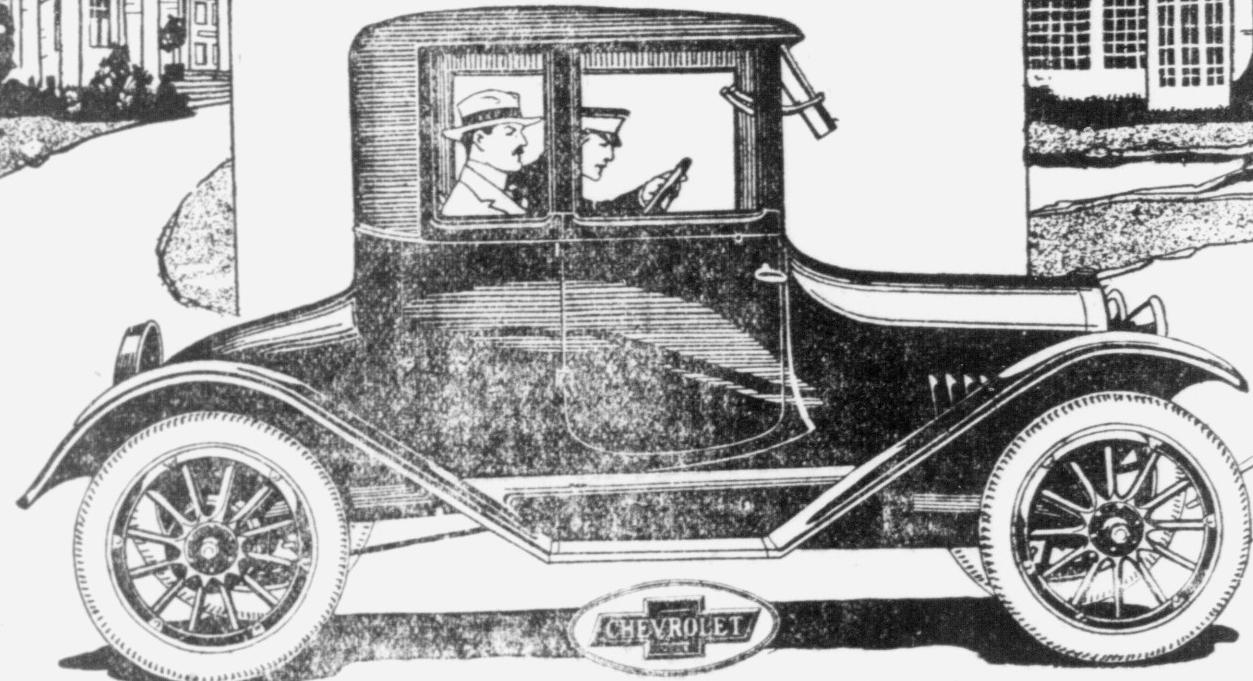

Owners of trucks do not wish half the earning power of their vehicles to be lost. Manufacturers and merchants with goods piled up and awaiting shipment do not like to see empty trucks pass their doors. Both need a local clearing house for information about the trucks that are available and the shipments that are ready—i.e., to bring together loads and empty trucks.

Such a clearing house the local commercial organization can easily provide. It will not ordinarily entail any special expense. It will promote cooperation in the community. It will render a very real service for which business men will be thoroughly grateful.

Return Load Bureau is a convenient name for a clearing house. The Bureau should ascertain the established lines of trucks that run regularly on fixed routes and the part of their capacity that is not being utilized. It should then obtain information from all owners of trucks used for private hauling, getting statements about the capacity of each truck, how far its capacity is used, between what points the capacity is unused, if the unused capacity can be made avail-

CHEVROLET
For Economical Transportation

The Chevrolet "Four Ninety" Sedan and Coupe represents more than is usual even these days in motor car efficiency. Its design lends itself to every purpose for which an automobile could possibly be used. In Summer as an open touring or roadster, in Winter as a closed car, it meets the innumerable needs of the business or professional man with dependable efficiency and comfort in all seasons. Also the regular touring cars.

Chevrolet "Four Ninety" Coupe,

FOR
COMMISSIONER
OF
Southern District
Harry (Hal) Gosnell

On account of heavy farm work, it has been impossible for me to see the voters personally. Will appreciate your support and any favors shown.

EZEKIEL M. JONES
Candidate for
Sheriff of Rush County

On account of the ban on public gatherings, to lessen the spread of influenza, and being engaged in the duties of the Sheriff's office, I have not been able to make a personal campaign in the county.

This is a 2-year term office and I am making the race at the close of my first term. If you believe that I have honestly and conscientiously fulfilled the duties of the office, I respectfully solicit your support in the coming election.

able for other persons at a reasonable price, etc. Besides gathering this information the bureau can make known to everyone that whenever a truck is to make a trip without a load the bureau will respond to a telephone inquiry by endeavoring to give the name of a person who wants to send a load over the route in question. Efforts can be made also to have drivers who bring loads by truck from other points telephone to the Bureau in order to get return loads.

At the same time the bureau can enlist the co-operation of business men who may have shipments to make.

In order that any driver or other person from out of town may quickly ascertain if there is a return load for him, each bureau should be specially listed in the telephone directory.

With incidental questions the Bureau will not usually need to deal. For example, it can leave the compensation that is to be paid to negotiation between the parties.

In England Return-Load Bureaus have proved of great assistance. They have been most developed in the United States by commercial organizations in Connecticut. Experience has demonstrated that the assistance they can render is very real and important, and that they can be organized advantageously in many communities where they have not as yet been tried.

MAKES COMMUNITY EFFICIENCY.

Thomas F. Snyder, secretary of the Return Load Committee of the Chamber of Commerce at Indianapolis, reports big interest among all business organizations in the Rural Motor Express and Return Loads as means of developing community efficiency.

**HOG PRICES ARE 20
TO 30 CENTS HIGHER**

Hog prices were twenty to thirty cents higher in Indianapolis today, offsetting the decline of yesterday. Receipts were 5,500 less than yesterday's. Corn held steady and the oats market was easy.

What Republicans resent is the persistent efforts of democratic leaders to read into the attitude of republicans toward this war the democratic attitude toward Lincoln in the Civil War, and McKinley in the Spanish American war.

Republicans have not only supported the war, but on the major measures for its prosecution they took charge of the legislature in opposition to democratic leaders. This did not confine itself to leaders but the vote on the measure for raising an army stood:

Republicans 222 201
Democrats 222 191
Independents 222 5

The votes against the measure:

Republicans 222 8
Democrats 222 16

including Randall and London, both of whom have trained with the democrats.

On measures designed to supply the means for the prosecution of the war, the bond bills and the revenue bills, republicans cast larger percentages than the democrats. In the recent man-power bill, the republicans again had to take the lead and carried the measure to final success.

Although the democrats have had at least ten more votes in congress than the republicans on eight of the

war measures, including both man-power bills, the republicans cast more votes than the democrats. In 26 of them not a republican vote was cast against the measure, and in all of them the republicans cast almost their full strength.

In sharp contrast with this position, the democrats in the Civil war studiously planned to block Mr. Lincoln at every turn. They openly opposed the war at the outset. The senators and representatives from eleven states withdrew to join the rebellion. Those democrats hailing from the states not in rebellion, save a notable few, openly obstructed measures designed to vigorously prosecute the war.

The Morrill bill, designed to collect necessary revenue to supply the funds to prosecute the war, was violently opposed by the democrats in both house and senate. The legal tender act, designed to increase the circulating medium, was resisted by a united democracy. The vote stood in the house 93 for, all republicans 59 against, including all the democrats who voted. The next great war measure was the national bank act, which was again resisted by every democrat in the senate but three. The vote in the house stood 78 yeas and 64 nays, almost a strict party vote. These three outstanding war measures, and without which the war could not have been successfully waged, were violently opposed in debate and almost solidly resisted in vote by the democratic members in each branch of congress. The same is true of the emancipation issue, and the questions growing out of the slavery question.

The democratic official opinion on the war announced in the National convention of 1864. The chairman of the democratic national committee, August Belmont, in opening the convention said: "Four years of misrule by a sectional, fanatical, and corrupt party have brought our country to the verge of ruin. The past and present are sufficient warning of the disastrous consequences which would befall us if Mr. Lincoln's election should be made possible by our want of patriotism. The inevitable results of such a calamity must be the utter disintegration of our whole political and social sys-

tem amid bloodshed and anarchy."

Horatio Seymour, the chairman of the committee, declared: "Four years ago a convention met in this city when our country was peaceful, prosperous and united. Its delegates did not mean to destroy our government, to overwhelm us with debt or to drench our land in blood; but they were animated by intolerance and fanaticism, and blinded by an ignorance of the spirit of our institutions, the character of our people, and the condition of our land. They thought they might safely indulge their passions, and they concluded to do so."

In the democratic platform of 1864 appears: "Resolved, That this convention does explicitly declare, as the sense of the American people, that after four years of failure to restore the Union by the experiment of war, during which, under the pretense of a military necessity, or war power higher than the constitution, the constitution itself has been disregarded in every part, and public liberty and private right alike trodden down, and the material prosperity of the country essentially impaired—justice, humanity, liberty, and the public welfare demand that immediate efforts be made for a cessation of hostilities, with a view to the ultimate convention of states, or other peaceable means to the end that, at the earliest practicable moment, peace may be restored on the basis of the Federal Union of the States".

Here are some of the reasons for Lincoln's desire for a republican congress. No such grounds can exist, for President Wilson to desire a democratic congress, and any attempt to ascribe Lincoln's reasons to the present situation is a deceptive effort for partisan purposes.

Under the strangle hold of the solid south, which completely dominates the rest of the country, maximum prices of the great staple products of the North have been fixed absolutely by congress: prices of cotton, the great staple products of the south, unregulated and unfixed—have been limited only by the national necessities and our ability to pay.

Do the American people believe when they give solemn and fair consideration to past events, that Mr. Wilson and the democratic party are now capable of intelligent leadership—capable of properly interpreting the aspirations of our country in war or peace? Let them judge impartially by phrases which Mr. Wilson and the democratic party have invented from time to time, to voice what they obviously believed to be

the expression of the highest statesmanship—watchful, waiting, strict accountability, neutral even in thought, too proud to fight, peace without victory, he kept us out of war, force without stint or limit, policies adjourned and polities convened?

the expression of the highest statesmanship—watchful, waiting, strict accountability, neutral even in thought, too proud to fight, peace without victory, he kept us out of war, force without stint or limit, policies adjourned and polities convened?

NINE HOOSIERS ARE IN OVERSEAS REPORT

461 Names Reported by Commanding General of American Expeditionary Forces

ONE DIED FROM DISEASE

Washington, Nov. 1.—The following casualties are reported today by the Commanding General of the American Expeditionary forces including 461 names, of which there are 17 killed in action; 11 died from wounds; 26 died from diseases; 1 died from airplane accidents; 182 wounded (degree undetermined); 113 wounded severely; 260 wounded slightly; 31 missing in action.

There are nine Hoosiers listed in the casualty list today from the War department as follows:

Wounded (degree undetermined)
—Sergt. Martin E. Hammond, Ft. Wayne; Private Philip G. Hagne, Indianapolis; Private Thomas Matheas, Richmond.

Died from disease—Private Claude Toby, Perryville.

Wounded severely—Private Jacob Winkler, Mount Vernon; Private Arthur Fox, Newcastle; Private George Hertel, Brookville.

Wounded slightly—Private Stanley II. Bartlett, Heltonville; Private Dean F. Goss, Gosport.

Three solid trainloads of potatoes from Northern Maine and New Brunswick recently arrived in Boston to be shipped to the West Indies. In the three trains there were 128 cars.

HOWARD CAMPBELL

Republican Candidate for the Office of COUNTY RECORDER

He was born in Rush county; has lived in the county all his life. Is a graduate of the common schools of Orange Township and of the Milroy High School.

He solicits the support of the voters of Rush county and will be grateful for all assistance given his candidacy.

Conscript or Convict!

Champ Clark, Democratic Speaker of the House of Representatives said when the Draft Bill was being debated, that Conscript was practically the same as a Convict.

But the Conscripts, many Rush County boys among them, upon whom reflection was cast by this Democratic leader, are good enough to fight Mr. Clark's Battles and our battles in Europe.

Yet President Wilson calls on Republicans to support the Democratic ticket, with candidates on it with no more vision than Speaker Clark.

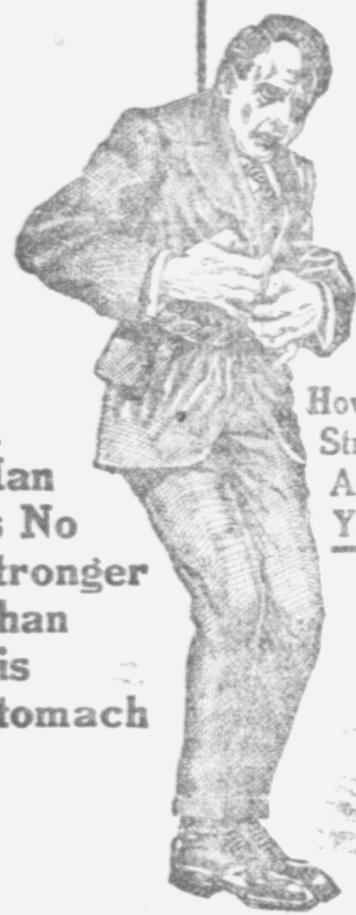

In other words, the President's characterization of Republicans was—GOOD ENOUGH TO BUY—GOOD ENOUGH TO DIE—GOOD ENOUGH TO PAY BUT NOT GOOD ENOUGH TO SAY.

Republicans will show their resentment next Tuesday by voting the Straight Republican Ticket and backing up their Representatives in Congress who have really supported the war to the full measure of their ability.

Don't Get Hung Up With an Acid Stomach

125,000 People Commit Suicide Every Year
A great food scientist says: "The cause of the most of them started in a bad stomach."

It's Just Acidity That Makes Millions Sick and Suffer

It's true. There are millions of people all over the land who are weak, nervous, all tired and dragged out, who are trying to build up their jaded nerves and weakened bodies with drugs and stimulants; and many of them also EAT and EAT—but fail to get anywhere near the real amount of strength and nourishment out of the food. Why?—simply because of too much acid in the stomach—acidity.

Get rid of the excess acid. Your stomach is all right—just give it a chance to work easily and naturally. Then see how good you will feel—your bones back, and your blood warm and up-to-date again.

A new method—truly a wonderful discovery called

EATONIC (FOR YOUR STOMACH'S SAKE)

is positively guaranteed to clear the excess acid out of your stomach and bowels.

It is made in the form of pleasant-tasting tablets—handy to carry around with you.

Get a big box of EATONIC at any drug store and see how quickly it relieves the immediate effects of acid-stomach. Away with heartburn, belching, food repeating, indigestion, etc.,—and then see how your general health improves.

So again we tell you—insist upon it—if you are going to take EATONIC from your druggist today. The confidence is there. You have faith in your druggist. We authorize him to absolutely guarantee EATONIC to you and you can trust your own druggist to make this guarantee good. If EATONIC fails in any way, take it back—he will refund your money. If you drink beer, do not keep EATONIC, drop us a postcard and we will send it to you at once; you can send us the bottle back.

Address: H. L. Kramer, Pres., Eatonie Remedy Company, So. Wabash Ave., Chicago, Ill.

Man Is No Stronger Than His Stomach

For Treasurer of Rush County

My inability to see everyone personally prompts me to solicit your vote in this manner, with the assurance that same will be appreciated. If elected, my aim will be courtesy and efficiency at all times.

REALTY TRADE FOR LAST PERIOD GOOD

Considerations Given in Transfer Records Reveal \$112,911.50 Changed Hands

THE LAST HALF OF OCTOBER

Largest Single Land Sale Amounts To \$17,500, Which is Paid For 160-Acre Farm

The real estate business was exceptionally good in Rush county the last half of October, according to the transfer records in the county recorder's office. Total considerations mentioned amounted to \$112,911.50.

The largest sale of the period was \$17,500, which sum was paid for a farm of 160 acres in Washington township. Another farm of about a hundred acres in Richland township sold for \$17,062.50. The transfers for the period were as follows:

John W. Ramsey to John W. and Minnie W. Bandrunt, Lot 38 in McMaham and Foster's addition to Rushville, \$1, and to correct title.

Joseph M. Farlow to John C. Powers the undivided one half interest in 50 acres in Anderson twp., \$6000.

Samuel W. and Amanda J. Mathews to John G. Hammond, part of lot 19 in the original plat of Milroy, \$100.

John G. and Jessie Hammond to James H. Spelman, part of lot 19 in the original plat of Milroy, \$2500.

Albert C. and Myrtle J. Kennedy to Harry Kennedy interest in lot 72 in H. G. Sexton's heirs add to Rushville, \$1.

William Cowan et al. to John W. Davis undivided $\frac{1}{4}$ of 130 acres in Richland twp., \$17,062.50.

Anna M. Cowan, guardian of John M. Cowan to J. W. Davis, undivided $\frac{1}{4}$ of 130 acres in Richland twp., \$5,687.50.

NEW BLOOD NEEDED

After the grippe, influenza or other serious illness, the body needs help to regain the health and strength sacrificed by the disease. The blood first of all must be purified and revitalized. For this purpose physicians know of no more efficient body builders than Iron, Nux Vomica, Gentian, Capsicum and Zinc Phosphate in some form.

In many preparations, however, the Iron causes constipation, but in Chase's Blood and Nerve Tablets, which contain all of these tonics, this is overcome by the addition of Aloin.

The system, therefore, gets all the benefits of the Iron and other body builders without any unpleasant after effects. Health and strength quickly return and pure, healthy blood is soon circulating through the body.

Each dose means more vim, vitality, and strength. Weigh yourself before taking and watch the result.

Dr. Chase's Blood and Nerve Tablets are sold by nearly all druggists at sixty cents a box. Special strength ninety cents.—Adv.

ALL WRONG

The Mistake is Made by Rushville Citizens.

Look for the cause of backache. To be cured you must know the cause.

If it's weak kidneys you must set the kidneys working right.

A Rushville resident tells you how. Frank McFarland, 830 W. Tenth St., says: "My kidneys began to get weak and in a short time I was so bad off I could hardly get about. My back was in a terrible shape. It ached so, especially at night that I could hardly sleep. Mornings my back was so stiff that when I bent over, I could hardly straighten again. The kidney secretions were too frequent in passage and highly colored. Another of the family had used Doan's Kidney Pills with such good results, I thought I would try them, so I got a box at Johnson's Drug Store. They helped me right away and I kept on using them until I was cured."

Price 60¢ at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McFarland had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—Adv.

Why the Small Loan Business Is Essential

Men in all walks of life find it necessary to borrow money. The capitalist calls upon the banker, the manufacturer could not operate successfully without an established banking credit, the merchant must have money beyond his capital to meet his obligations, likewise the industrial worker is called upon to meet some unusual and unexpected expense and must find some source of relief.

Banks and trust companies do not seek the small borrower and as the average industrial worker has no bankable security, his credit is limited and the thought of applying to a friend is repulsive. He is honest and will pay every obligation. He realizes that a bank will not lend money on the class of security which he has to offer. The Industrial Licensed Lender makes a specialty of small loans upon the security which he possesses.

The fact that twenty or more states have in recent years passed laws, legalizing, regulating and supervising the business of lending money in small amounts on classes of security not acceptable at the banks, establishes beyond a question that the small loan business is a necessary institution and especially is this true when these laws have been passed not as political measures but as the result of the efforts of public welfare, business men and commercial organizations who have made the problem of the Industrial worker a special study and whose only object in seeking legislation was a sincere desire to improve the condition of the industrial worker and give him a place where temporary financial assistance could be secured with safety.

Due to the high cost of living, the income of many families has not been sufficient to meet the obligations that must be taken care of. Some provision must be made to take care of those obligations until the regular normal income is restored.

The Small Loan Business renders an indispensable service along this line and provides a place where the industrial worker may obtain financial assistance.

In Indiana every legitimate Loan Company has a license which is displayed in their office. When making an application ask to see their license and membership certificate of the Indiana Association of Licensed Small Loan Brokers, which will be a guarantee that all loans will be made strictly in accordance with the Laws of Indiana.

Our Service Department was established for your benefit and any suggestion for the betterment of the Small Loan Business will be cheerfully received. Address

HALLOWEEN GETS SOME RECOGNITION

Youngsters Put on False Faces And Some of the Customary Pranks Are Played.

VERY LITTLE DAMAGE DONE

The absence of the usual social events was the only thing which made last night seem different from any other Hallowe'en. Customary Hallowe'en parties were not held because of the order preventing any public gatherings due to epidemic of Spanish influenza. Masqueraders made merry, according to the custom of scores of years, and boys played their usual pranks, frightening people with "tick-tacks" and other noise-making devices.

Very little property was destroyed. This method of celebrating Hallowe'en is decreasing each year, much to the satisfaction of nearly everyone. Some boys, however, felt that Hallowe'en should not be allowed to pass without the usual pranks being played. Evidence of this spirit was seen in the Graham school building yard this morning. A big wagon was placed in front of the west entrance to the building. The crowd on the streets was not as large as in former years, but there were enough youngsters masked, so that the occasion did not pass without some recognition.

BIG REDUCTIONS IN 1918 TAX RATES

Next Year's Levy is Lower in Every Township in the County With One Exception.

COUNTY TAX DOWN FIVE CENTS

Increase of Ten Cents in Rushville School Levy More Than Offsets Other Reductions.

The tax rate for next year has been reduced in every township in the county, except one, according to the tax sheet prepared for 1918 in the county auditor's office.

There are several things to account for this unusual reduction. The county council reduced the county tax five cents, it will be remembered, which offsets the rate of every township and corporation in the county. The council also lowered the flood bond tax from three cents to one cent and nine mills.

The largest single item which contributed to the reduction of the tax rates in the townships, was the turning back of the surplus of \$40,000 in the gravel road fund, which has been accumulating for four or five years. The surplus was pro-rated back to the townships to which it belonged.

The Glenwood tax rate was increased sixteen cents and the Rushville city rates will be two cents higher next year. The city council here left the city levy the same, reducing the rate on bonds one cent and adding one cent to the levy for street oiling. An increase by the city school board of five cents on the tuition tax and five cents on the special school fund tax offset the reductions made by the county and township and is responsible for the increase of two cents. Next year's rate at Carthage, the only other corporation in the county, is twelve cents lower. The 1917 and 1918 rates for each division and the reductions are as follows:

	1918	1917	Reduce
Carthage	\$3.62	\$3.74	.12
Ripley	2.27	2.50	.23
Posey	2.30	2.53	.23

ANSWER TO INQUIRIES ON SHIPPING PARCEL

War Department Arranges to Distribute Xmas Labels to Soldiers Before Embarking.

GET BOXES AT RED CROSS

In answer to many inquiries occasioned by the Red Cross, part in the shipping of Christmas parcels to soldiers overseas, Lake Division Red Cross Headquarters is today able to announce for the information of its organizations:

That the War Department has arranged to distribute Christmas parcel labels to men now embarking for service overseas. Men abroad have been given one Christmas parcel label to be returned to friends or relatives in this country. The friends and relatives who receive the labels

are to secure from the Red Cross, after Nov. 1, small cartons in which to ship Christmas parcels abroad. The Red Cross has also been designated to inspect the contents of all such parcels and to assist the post office in getting the shipments ready to go overseas.

As no Christmas parcels can be accepted without the official addressed label, issued by the War Department, many friends and relatives of men just going overseas, or about to go, have been fearful that the parcel labels would not be forthcoming for the gifts of these men.

"Our information to the effect that the War Department has not forgotten to provide Christmas parcel labels for soldiers not yet abroad should set at rest the fear of friends and relatives that their boys will not receive Christmas parcels," said Frank E. Abbott, assistant director of the division.

800 WOMEN NEEDED BY SALVATION ARMY

Commander Evangeline Booth Says War Relief Work Must Be Extended.

Commander Evangeline Booth, leader of the Salvation Army in the United States, has been suddenly called upon to furnish 800 additional war work women for France. The request is contained in a report just received by her from Col. William A. Barker of the Salvationist forces, whom she sent to France over a year ago to establish hutment and general war relief work with the American troops.

"We will do all we can to fill this demand," said Commander Booth when discussing the approaching United War Work Campaign, "and the need itself should impress the American public all the more with the absolute necessity for sustaining and enlarging the war relief work of the seven organizations, besides the noble Red Cross, now merged for a drive for funds. Each is a vital cog in a vast machine for human relief, and each is indispensable, serving its particular elements in its own way."

The Salvation Army was born in hardship, reared in privation and trained to every phase of human misery and how to cope with it. Perhaps that accounts in some degree for the success our work has attained and for which we are thankful.

"We are of the common people, and we toll on a practical basis. We learned the lesson of how to do it in the Boer war, when we stood at the side of Britain's troops and weathered it out to the end. We have been tried by fire, and the mothers and fathers of America, as in other countries, trust the Salvation Army to do the thing they would like to do for their men if they but had the chance.

"With 1,210 trained workers at the front, operating from 420 huts and dugouts, the Salvation Army is doing, has done and will continue to do its best for the cause of humanity and Liberty."

CURE FOR BLUES NEAR THE CAMPS

Community Service Takes Place of Mother, Friends and Home for Soldiers.

Ten young officers of the Student Army Training Corps of the University of Detroit recently applied for a furnished house and a housekeeper who would not be a servant, but, as one young officer expressed it, "the sort of woman to whom the boys can call out 'Hello, mother' when they come in the front door."

Homesickness is the malady for which War Camp Community Service supplies innumerable cures.

"We've got your number," says the W. C. C. S. to the homesick boy from camp with leisure to spend in any one of the three hundred towns scattered over the country. While he's wondering what on earth he'll do with himself when he gets there, not knowing a soul in town and with a limited percentage of his "thirty per" in his pocket, along comes a friendly printed card from the local branch of his own lodge announcing a reception that night especially for soldier members. By the same mail the Methodist church sends an announcement of all its meetings, addressed to him, with *This Means You* printed at the bottom. How did they know he was a Methodist?

He had forgotten about the little "Personal Card" he made out at the adjutant's request during his first day in camp when it was only one of the endless details in the round of dentists and doctors and general confusion. The W. C. C. S. had not only his number, but his name and address, his home town, the name of the school he'd gone to and a good bit about the things he was fondest of doing—each fact written into a little blank on the card especially for it.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

GIVES SWEET CHOW STICKS TO YANKEES

Red Cross Provides 1,100,000 Bars Of Chocolate For American Soldiers In England.

ARE OF GREAT VALUE

(By United Press)

London, Oct. 2. (By Mail.)—Yankee soldiers in England have begun

eating 1,100,000 chocolate bars that recently arrived at a British port.

The bars are given out gratis by the American Red Cross, which has contracted for the entire output of a big American factory. The bars are a new type.

Each bar is enclosed in a wrapper decorated with the American flag and the Red Cross emblem, and inside is a small card which says: "Chocolate wheat bar: Compliments of American Red Cross Canteen Department." This is presented to you as a token of our appreciation of the great ser-

vices you are rendering our country.

"This bar is a well-balanced emergency ration, consisting of four highly nutritious foods—chocolate, wheat, nuts and raisins. Each bar equals in food value any of the following: two lamb chops; two eggs; two plates clam chowder; one big glass of milk; two baked potatoes; three apples; two ordinary cups of custard or two helpings of beans."

GELATINE CLASSIFIED AS SUGAR ALLOTMENT

Announced By U. S. Food Administration Gelatine Preparations Are Used For Hospitals

SERVE SICK IN INSTITUTION

Announcement is made by the United States Food Administration that gelatine preparations, where used for hospitals and similar institutions, have been placed in the essential class for sugar allotment, owing to their importance in the hospital dietary.

Manufacturers of such products who will agree to supply hospitals only will be allotted such sugar as required for this supply, the requirement being made that each container be properly labelled in order that hospital officials may be informed that, in the interest of sugar conservation, gelatine preparations should be served only to the sick in the institutions, and not to nurses, orderlies and other employes. The label on the gelatine containers should read as follows:

"Contents of this package manufactured under permit from the United States Food Administration solely for use in hospitals in feeding sick and convalescent persons."

♦♦♦♦♦
+ "KEWIE" IS RARE BIRD +
+ IN UNCLE SAM'S ARMY +
♦♦♦♦♦

(By United Press)

With The American Army In France, Sept. 12. (By Mail.)—There are birds and birds among American birdmen along the front. One is a rare specimen, the "kewie bird".

A "kewie bird" is a chap who flies little, but always comes back with a tale of terrible fighting whenever he gets into his machine.

"We call such flyers kewie birds", explained one of the real birdmen who never talks of himself, "because the kewie is a bird inhabiting the shores of Newfoundland. It always flaps its wings and squawks a lot but never rises from the earth."

A man never remains a "kewie" long among Uncle Sam's flyers. They won't stand for the "kewie's squawks." The "kewie" is soon "ridden to death" with derision, and ceases his talk.

There are seldom "kewies" in the aviation camps, especially among the men who fly much. Most aviators are modest to the extent of being bashful, and while they will always tell what the other fellow did, their own experiences can be hardly pried out of them.

They'd rather be shot down by a boche than be a "kewie bird".

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

WILL REPRESENT SAVING IN SUGAR

New Ruling That no Person Shall Have More Than Two Pounds a Month to be Beneficial

FIGURED 4 WEEKS TO A MONTH

Approximately 200,000,000 pounds of sugar will be saved per year by a new ruling of the Food Administration which will prevent any one from obtaining more than two pounds of sugar per month.

Many people were unconsciously breaking the regulation regarding the distribution of sugar by purchasing their sugar on the basis of one-half pound per capita per week. On this basis of four weeks to the month there would be only forty-eight weeks to the year, or three hundred and thirty-six days. This

would leave twenty-nine days or practically another month during which sugar would be consumed on a basis of two pounds per capita.

GET AFTER THAT COLD RIGHT NOW

Got right after it with a bottle of Dr. King's New Discovery

She never let a cough or cold or case of grippe go until it grew dangerous. She just nipped it when she began to sniffle or cough before it developed seriously.

Men, women, and children of every age have used this preparation for fifty years as a prompt reliever. All ages are using it today because of its positive results. Generous size bottles, 60c and \$1.20.

Constipation Corrected

Dr. King's New Life Pills tonight mean clear bowels, a clear head, clear thinking, a day well begun in the morning, good digestion, clearing skin. Mild in action but sure and comfortable. At drug stores everywhere. 25c.

With a population of 100,000,000 people this would require about an additional 200,000,000 pounds of sugar.

The new regulation which becomes effective October 15 requires the consumer to purchase his allotment of sugar every 15 days or semi-monthly, rather than every week.

Decide NOW what you SHOULD GIVE to the United War Work Fund.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid.* For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

Chamberlain's Tablets

TANKAGE FEED IS PROFITABLE

HOGS!

MEANS SAVING OF CORN IN PUTTING THE POUNDS ON MR. PORKER QUICKLY.

By J. R. WILEY
Swine Specialist, Purdue Extension Department.

Eighty-three and a half per cent of the cost of producing a hog is feed that is consumed, according to data recently obtained by the farm management department at Illinois University. This is a much higher percentage for feed than is the case with dairy cattle or beef cattle. So the biggest problem that we have in pork production is to handle our feeds in such a way that they return the maximum amount of grain. Especially during wartimes, when increased production of food necessities is so vital to our success, it is imperative that we make the most economical use possible of the feeds utilized for hogs. We must study to produce 100 pounds of pork with the smallest possible amount of feed.

The biggest opportunity for feed economy is in using balanced rations. We have talked balanced rations for a long time and yet no question has been asked us more frequently this summer: "Does it pay to feed high-priced tankage or other protein supplements to hogs?"

Ordinarily the farmer figures that he is getting a good pork return from corn alone if he obtains ten pounds of gain for each bushel of corn which he feeds. This means that the farmer who feeds corn alone calculates on feeding 560 pounds of corn for every 100 pounds of gain made by his hogs. Experimental work made at the various stations show that the farmer is about right in this estimate. If the hogs were given an opportunity to eat what tankage they want with the self-feeder along with the corn, they will consume about thirty pounds of tankage and 400 pounds of shelled corn for each 100 pounds increase in weight.

How Corn is Saved.

This means that there is a saving of 160 pounds of corn from feeding thirty pounds of 60 per cent tankage in comparison to feeding corn alone.

In September it cost about \$1.50 to \$1.55 a bushel for corn, or \$55 a ton and tankage retailed in small lots to farmers at about \$110 per ton, so the farmer is paying twice as much a pound for tankage as the corn costs him, or thirty pounds of tankage cost as much as sixty pounds of corn. This still leaves a net corn profit from the buying and feeding of tankage amounting to 100 pounds for every 100 pounds of pork produced. In other words, for every \$1 invested in tankage the farmer receives about \$3.50.

Make More Money on Them!

We Sell the BEST 60% Tankage

President Wilson

Makes a Fair Request

President Wilson makes the same request that was made for President McKinley—the same that was voiced by President Harrison and by Colonel Roosevelt. They said that to elect a congress of opposite political faith to the President might be taken in Europe as an indication that the country had repudiated the President's policies, and that it would retard peace negotiations with Spain.

This war is twenty times as important as that war, and President Wilson makes the same request that was made for President McKinley and granted to him by the people. Read part of what President Wilson says:

My Fellow Countrymen:

The Congressional elections are at hand. They occur in the most critical period our country has ever faced or is likely to face in our time. If you have approved of my leadership and wish me to continue to be your unembarrassed spokesman in affairs at home and abroad, I earnestly beg that you will express yourself unmistakably to that effect by returning a Democratic majority to both the Senate and House of Representatives."

Let Us Be Fair

Americans love fair play. Let us be just as fair with President Wilson as we were with President McKinley. Our President today is the leader of the world. His wisdom in this war has made the United States the greatest of all nations. The balance of the world has implicit faith in him and we should not shake that confidence by a failure to indorse him at the polls.

Harry G. Strickland is the candidate of the President's party for congress in the sixth district. He is a capable man, worthy in every way to represent this district.

VOTE FOR Strickland for Congress

HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES**7 A DAY FOR 7 DAYS**

A Vigorous, Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin; Calcium Glycerophosphate; Iron Peptone; Manganese Peptone; Ext. Nux Vomica; Powd. Bentalian; Phenolphthalein; Olearesin Cap-

sicum; Kolo.

Mr. and Mrs. William Scott and family and James Hood motored to Greensburg Sunday and spent the day with Mr. and Mrs. Charles Hood and family.

EACH HAS MISSION IN THE WORLD WAR

Continued from Page One
is \$5,000,000 and Rush county's is \$40,000.

The Young Men's Christian Association, which is asking \$100,000,000 for its war work, is serving no less than 3,000,000 American soldiers and sailors in Europe and in the training camps at home. It has between five and six hundred huts in this country and a greater and growing number on the other side. It is keeping a bit of home even at the trenches and under the fire of the enemy. The Y. M. C. A. hut at the front is the soldier's club, his church, his college. It is open to all denominations for service, from the early mass of the Roman Catholic to the later service, of the Protestant clergyman and the Jewish Rabbi, and the song service of the Salvation Army. It is used for musical and theatrical entertainments by the most famous actors and actresses of the world.

The Young Women's Christian Association, asking for \$15,000,000 has gone into the war and into the war industries with the women and girls called to new perilous work. It has co-operated with the government in the proper housing and care of the women munition makers in this country and has provided recreation centers at all of the twenty-one cantonments. It has established similar centers at munition plants in France and has been so successful in providing necessary rest and recreation that the English government has asked the help of the American Y. W. C. A. in work of that character in England.

The National Catholic War Council, including the Knights of Columbus, asks \$30,000,000. The Knights of Columbus have erected club houses at the points of embarkation in this country and debarkation in France, and have secretaries assigned to permanent duty aboard transports plying between this country and European ports. One hundred K. of C. secretaries have been ordered to Italy, where ten buildings are being erected. There is a headquarters building in Paris and permanent club houses throughout France and in London. A fleet of motor trucks follows the rapidly advancing armies to provide our soldiers with "service under fire."

The Jewish Welfare Board, which will receive a \$3,500,000 share in the United War Work Campaign, officially represents all national Jewish organizations in building up the morale of more than one hundred thousand Jewish men in the army and navy. It has sent its trained workers into the camps and naval training stations.

It has erected clubrooms to which soldiers, irrespective of race, can go for rest or for entertainment, where there are libraries with English, Yiddish, and Hebrew books, where religious services on Friday evenings and holidays are open to any man who wishes to attend.

The Library War Service of the American Library Association, which is asking for \$3,500,000, has sent overseas during the past year more than a million books for the men of the fighting forces. It supplies a book for the man when he wants to read and the kind of a book that he wants. It gives its service quickly.

BANISH CATARRH

Breathe Hyomei for Two Minutes and Stuffed up Head Will Get Relief

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe Hyomei.

It will clean out your head in two minutes and allow you to breathe freely.

Hyomei will end a cold in one day, it will relieve you of disgusting sniffles, hawking, spitting and offensive breath in a week.

Hyomei is made chiefly from a soothing, healing, germ killing antiseptic, that comes from the eucalyptus forests of inland Australia where catarrh, asthma and consumption were never known to exist.

Hyomei is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, use as directed and relief is almost certain.

A complete Hyomei outfit, including inhaler and one bottle of Hyomei, costs but little at druggists everywhere and at Johnson's Drug Store. If you already own an inhaler you can get an extra bottle of Hyomei at druggists.—(Adv.)

and directly to the army and furnishes to the soldier who is preparing for after the war the technical books that he needs for his study. In the huts and canteens of all the welfare organizations a branch library has been established, at which the soldier or sailor can pick up in his hour off duty the novel or magazine that suits his fancy. There is a deck library on every transport and on many of the war ships and government cargo ships. In every ward of every military hospital a shelf of books is near the hand of the convalescent soldier.

The War Camp Community Service, which is asking \$15,000,000, is a nation-wide movement for hospitality keyed to harmonize with the training camp program of the War and Navy Departments. It has a definite, ordered program, supplemented by resources of the folks back home. It invites the soldier and sailor off duty in a strange town to dine and dance and meet the right sort of women. It counteracts the red light lure with the greater attraction of wholesome recreation and speeds the man in khaki or blue on his overseas way with a keener enthusiasm to fight for a country in which he leaves no bitter, regretful memories.

The Salvation Army's request for its work at home and abroad is \$3,500,000. As near the trenches as relief work can be carried, the Salvation Army "hutment", is open, and a woman officer ready to serve hot food to the men under fire. A cook stove with an oven that can bake is certain to be part of the equipment of the little Salvation Army house. In front of it, "lassies" with baskets of food have stood under fire in order to give a hot cup of coffee to the men who are bringing up the ammunition. Truck loads of pies and doughnuts start daily from the bases to the end of the lines. The women officers have mended the clothing and darned the stockings of the soldiers who come to the hutment for recreation. In this country, the Salvation Army maintains hotels near the military and naval bases.

PIMPLY? WELL, DON'T BE!
People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

DON'T ENDURE RHEUMATIC PAIN! HERE'S QUICK RELIEF FOR YOU

Stop the pain! Give me relief! That's what you want when you're hurt. That's what you get with Sloan's Liniment. It not only "kills pain," but does it quickly, without delay.

If you're tormented by Rheumatism, Neuralgia, Sprains, Bruises, Backache, and body or nerve pain—just see how quickly a little Sloan's Liniment gives relief. The very first application rests and comforts. Seems to reach right

down to the seat of the trouble, warming and easing the nerves and tissues. You can almost feel the inflammation, swelling or stiffness subside, as the pain grows less and less.

You don't even have to wait to rub in Sloan's Liniment. It penetrates, and its clear, clean liquid can be poured right on the skin without staining. Get a generous size bottle from your druggist today.

GATES KETCHUM

DEMOCRATIC CANDIDATE FOR

Prosecuting Attorney

65th JUDICIAL CIRCUIT. RUSH COUNTY.

I find that I will be unable to see all the voters of the county personally. I believe I understand the duties of the office. If elected, I expect to fully discharge my duties as such officer. The people of the county are entitled to security and happiness, and protection of their property. On the other hand, innocent persons should not be prosecuted and subjected to annoyance and even disgrace; nor should they or the county be subjected to the expense of abortive trials. If the policies above outlined are satisfactory to you, I respectfully solicit your vote and assure you of my gratitude for your consideration of my candidacy.

Yours very truly,
GATES KETCHUM.

Rule of Hapsburg Totters; Kaiser's Abdication Certain

PLANS FOR AN UNMONARCHIAL STATE DRAWN UP IN VIENNA

Victor Adler, Socialist, is Named Foreign Minister of New Austrian Government. Revolutionary Spirit is Growing. War Cabinet is Discussing Abdication of The Kaiser, According to Berlin Newspapers.

GERMAN INTERNAL SITUATION IS WORSE

(By United Press)

Copenhagen, Nov. 1.—The war cabinet is discussing abdication of the kaiser and that Dr. Delbreck, chief of the privy council, will present the abdication document to Wilhelm, according to Berlin newspapers.

Copenhagen, Nov. 1.—The national council after a consultation with a delegation of soldiers and officers, decided to establish a provisional workmen's and soldiers' council and drew up plans for a new unmonarchical state, according to a Vienna dispatch filed at midnight.

Victor Adler, socialist, has been named foreign minister. Other socialists have been named to high positions.

The revolutionary government is growing throughout the country. Count Karolyi, head of the national council, has wired Berlin papers that the Budapest garrison and police have acknowledged the new government. The population is jubilant.

Copenhagen, Nov. 1.—Count Tisza, former Hungarian premier and leader of the Hungarian government party, has been murdered, according to a Vienna dispatch today. He opposed Count Karolyi in the establishment of a separate Hungarian state.

Count Tisza was regarded as one of the sinister statesmen of the dual monarchy. He exerted a strong influence over the late emperor Charles Joseph. He is reported to have written the dictatorial note to Serbia on the murder of the Austrian grand duke, which caused the war.

Paris, Nov. 1.—Members of the inter-allied diplomatic council believe the Hapsburg dynasty is ended and that an Austrian republic is likely to be formed.

The kaiser's abdication is also considered to be inevitable, the date only being uncertain.

Confidential advices to the conference suggest that the German internal situation is likely to force his abdication.

Actions equivalent to the surrender of the German and Austrian high military commanders, it is believed certain will be included in the armistice terms.

The surrender of Turkey to the British indicates that the allies will certainly force the enemy literally to wave the white flag in France and Italy.

Revolution Starts In Vienna.

London, Nov. 1.—A revolution has started in Vienna, reports reaching here today indicate.

The national government in Austria has assumed full power, it was announced by Herr Reiner, socialist leader, according to a dispatch from Vienna today.

Crowds outside the building where the national council was in session cheered the announcement and waved red banners.

Austrian marines have revolted, seizing the warships at Pola and placing them at the disposal of the Hungarian and the Jugo-Slavs, it was reported from Copenhagen.

Soldiers returning from the front, bearing red flags, joined crowds of workmen parading the streets, shouting "Down with the Hapsburgs."

A provisional workmen's and soldiers' council has been formed.

FORGERY CHARGE QUASHED

John Gantner is Discharged by Judge Sparks in Circuit Court

A motion to quash the indictment against John Gantner, charging forgery, was sustained, with exceptions to the state, and the defendant was discharged, in the circuit court by Judge Sparks yesterday. Mr. Gantner was charged with endorsing a check made payable to another person, and drawing the money. The check was issued by Voorhees Cavington, then democratic county chairman, to a girl who was employed in democratic headquarters. The motion to quash was filed September 9 and the decision not made until yesterday.

CALL FOR EIGHT MEN IS RECEIVED

Will be Entrained for Camp Wadsworth, S. C. During 5-Day Period Beginning Nov. 5.

NO RELATION TO OLD CALL

Only Class One Registrants of June 5, 1917, Class Called—33 Are Classified Thursday.

A call for eight white registrants qualified for general military service, to be inducted into the military service during the five-day period beginning November 5, was received by the county army selection board today.

They will be sent to Camp Wadsworth, Spartanburg, South Carolina. A quota of twenty-three men was selected last month to be sent to this same camp, but the call was suspended because of the Spanish influenza epidemic. The call today has no bearing on the earlier call. The registrants selected to fill the call of last month will be held in readiness to be entrained whenever an order comes to send them to camp.

The eight men for today's call must be selected in sequence of older numbers, but no registrants of the September 12 class may be sent. These instructions, it is presumed, is for the purpose of using up registrants in the June 5, 1917 class before the new class is entered. This county has more than enough class one men in the June 5 class to fill the call.

The board announced today that Ralph Nipp had applied for induction under the call received yesterday for limited service men to be trained in the motor transport corps for overseas service, at Newport News, Va.

It is promised that men accepted under this call will be sent across the water in ninety days. The physical examination papers of limited service men applying under this call have to be sent to the commanding officer at Newport News, and if he thinks they are physically qualified for the service, he will send competent orders for their induction.

The board is in receipt of the rulings in fifteen cases by the district board. Six of the eight put in class one were refused deferred classification on agricultural claims. The other two were denied appeals from the decision of the local board.

Five were placed in class two, two in class three and one in class four on account of agricultural claims. Continued on Page Three

MRS. MARIA LINDALE DIES

Expires This Morning at 8 O'clock at Her Home in Glenwood.

Mrs. Maria Lindale, wife of John W. Lindale, Sr., age 84 died at her home in Glenwood, this morning at 8 o'clock. The deceased was born in New Jersey, May 15, 1834. Mr. and Mrs. Lindale were united in marriage in Philadelphia, Pa., November 22, 1854 and came to Indiana, where they since resided. She is survived by her husband, and two children, John W. Lindale, Jr., living near Glenwood, and Mrs. A. G. Putman of Indianapolis.

The funeral services will be held at the house Sunday afternoon at 2 o'clock with burial in the cemetery north of Orange.

BAN WILL BE OFF AFTER SATURDAY

Dr. E. I. Wooden Informed Restrictions Regarding Public Meetings Will Be Removed.

TALKS WITH DR. J. N. HURTY

Business, Religious and Social Life Of County Will Resume Normal Course Sunday

The business, religious and social life of Rush county will resume its normal course Sunday morning after an interruption of four weeks on account of an epidemic of Spanish influenza.

Dr. E. I. Wooden, county health officer, was informed by telephone this morning by Dr. J. N. Hurty, secretary of the state board of health, that it would be permissible to lift the ban on all public meetings Saturday midnight.

Dr. J. B. Kinsinger, secretary of the city board of health, consulted with Dr. Wooden and they agreed that conditions in Rushville were such as to permit the lifting of the ban here.

The situation continued to show decided improvement today. No new cases had been reported up to noon and only seven were reported in the whole county yesterday, bringing the total number reported in the county during the epidemic up to 644. Five of the new case yesterday were in Rushville, three being in one family, one in a family where the malady already existed and one in a home where the disease had not appeared.

Health authorities warned that the same precautions should be taken as when the ban was in effect. People with cold, and people sneezing and coughing will not be permitted in public gatherings at all. They are warned to stay away because there is danger of them being excluded from places where crowds are congregated.

The death of Miss Mable Beecraft late yesterday afternoon brought the total fatalities in the county during the epidemic up to fourteen. All other patients who were seriously sick are reported to be improving.

The lifting of the ban means that the churches will be open as usual on Sunday, after having been closed for three Sundays, and that the schools and theaters will reopen Monday. Ministers of the county urged a large attendance Sunday because of the loss of time, but asked Continued on Page Six

AUSTRIAN FRONT IN THE GRAPPA SECTOR COLLAPSES COMPLETELY

Impossible to Estimate Number of Prisoners Who Are Coming Down From the Mountains in Flocks. Italian Troops Enter Belluno, 25 Miles Beyond the Piave. Additional Penetration of Two Miles by British.

THOUSANDS OF PRISONERS TAKEN

(By United Press)

Rome, Nov. 1.—Italian troops have entered Belluno, 25 miles beyond the Piave, according to battlefield dispatches received here today.

The Austrians are evacuating Udine. The Italians are completely overrunning the Venetian plains.

Rome, Nov. 1.—The Austrian front in the Grappa sector has completely collapsed, the war office announced today. It is impossible to estimate the number of prisoners, who are coming down from the mountains in flocks. All of the enemy artillery has been captured.

British troops reached the Livenza river on a front of four miles after occupying Sacile.

The Austrians are falling back rapidly on a wide front.

With the British Armies, Nov. 1.—British troops advanced in two days' fighting to within less than three miles of Audarde. The Escut was crossed at Kerkhove, and British gains are being exploited beyond the river.

An additional penetration of nearly two miles has been made, making the total advance since the attack began yesterday, nearly four miles. One thousand additional prisoners, three guns and four motor ambulances have been captured.

EACH HAS MISSION IN THE WORLD WAR

Activities of Seven Organizations United in Campaign for Funds Are Briefly Outlined.

FOR WELFARE OF SOLDIERS

Purpose of Each is to Make a "Home Away From Home" for the Fighting Men

The seven organizations which have combined for the United War Work Campaign represent the seven doors open to the soldier that offer him home comforts and cheer. Every one of these seven war work agencies has placed all its resources and facilities at the disposal of our fighting men to make for them a "home away from home". In no sense of the word do they lose their individualities in combining for the big drive, but are merging all their efforts to raise this stupendous sum for the welfare of our soldiers. The actual solicitation of funds will be carried on from November 11 to November 18. Director General John R. Mott has asked that the original national quota of \$170,500,000 be over-subscribed to reach a fund of \$250,000,000. Indiana's minimum quota

(Continued on Page 10)

Italian Continue Wedge

With the Italian Armies in the Field, Nov. 1.—The Italians continue to drive a wedge into the Austrian mountain positions on the northern portions of the front which constitute an ever increasing menace to their communications in the Trentino regions.

British Deliver Attack

London, Nov. 1.—The British suddenly attacked south of Valencenue this morning, it was announced by Field Marshal Haig.

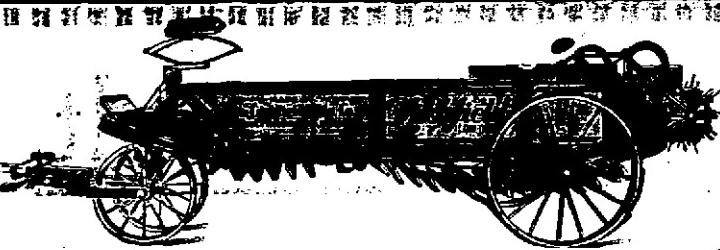

Good progress on this front was reported.

DISMISSED BY PLAINTIFF

The case of the Citizens Natural Gas, Oil & Water company, of Shelbyville, against the state public service commission, which was sent to Rush circuit court on a change of venue, was dismissed in the circuit court yesterday on motion of the plaintiff at the plaintiff's costs. The case was filed because the commission refused the plaintiff the right to build an artificial gas plant in Shelbyville.

MONDAY IS LAST DAY

County tax collections yesterday approximately \$80,000 due on the fall installment which will have to be paid by Monday night. The treasurer's office will be open tonight and tomorrow night. Rushville people are asked not to pay their taxes Saturday when farmers generally pay, to prevent a rush at the office.

Repairing a Manure Spreader.

One of the strong inducements in favor of our handling and pushing the sale of the "RUSHVILLE SPECIAL" Manure Spreader is the REPAIR question. Sometimes our customers think we make a lot of money on repairs—a good deal more than we do. But we like to keep away from the repair question if we can, and in selling a machine, if we could get one that would never have a repair on it until it was entirely and completely worn out, this would be the kind we would sell every time.

Our manure spreader which we have been talking to you about and which is proving so effective in the field, comes as near being repair proof as any machine we ever saw. The reason it requires little or no repairs is the very same reason that gives it such light draft and it is because of this reason that it is sold under a FIVE YEAR GUARANTEE.

The machinery runs so light and there is so little friction that the team does not apply power enough to the machine to wear it out. If it doesn't wear out it doesn't need repairs. This is our simple analysis and it is a true one.

Some machines simply tear themselves to pieces and are constantly in the repair shop or being tinkered up in one way or another, not because the owners abuse or misuse or are neglectful of them, but simply because they won't stand the racket. We don't have to expert our spreader, don't have to look after it—it takes care of itself and we eliminate the repair question. Come and see it.

C. H. Tompkins

RUSHVILLE, INDIANA.

RETURN LOAD BUREAUS OF GREAT ASSISTANCE

Many Communities Adopting New Way of Transportation as War Measure.

The Chamber of Commerce of the United States, which includes the live commercial organizations of practically every city of importance in the country, has issued to its members the following bulletin on Motor Truck Transportation, specifically dealing with a Return Load Bureau:

The motor truck is a part of the transportation equipment in every community. Its use more nearly to capacity will help solve local problems.

More complete use means loads both ways. A motor truck usually carries a good load to its destination, whether the destination is in the same community or in another city. Too often, however, the truck makes the return trip with no load. Every time this occurs there is waste of at least half the capacity of a truck to do work in transportation.

GEORGE S. WINDERS.

Of the Indianapolis Chamber of Commerce, who is putting into execution the most effective plans for making the Return Load Bureau of greatest usefulness.

Owners of trucks do not wish half the earning power of their vehicles to be lost. Manufacturers and merchants with goods piled up and awaiting shipment do not like to see empty trucks pass their doors. Both need a local clearing house for information about the trucks that are available and the shipments that are ready—i.e., to bring together loads and empty trucks.

Such a clearing house the local commercial organization can easily provide. It will not ordinarily entail any special expense. It will promote co-operation in the community. It will render a very real service for which business men will be thoroughly grateful.

Return Load Bureau is a convenient name for a clearing house. The Bureau should ascertain the established lines of trucks that run regularly on fixed routes and the part of their capacity that is not being utilized. It should then obtain information from all owners of trucks used for private hauling, getting statements about the capacity of each truck, how far its capacity is used, between what points the capacity is unused, if the unused capacity can be made avail-

New Dresses For Fall and Winter Wear

In spite of the advancing markett, we are offering these splendid frocks at prices that will surpris-ingly please you.

The figures are really based on calculations of months ago, when fine blue serge that then cost the makers \$3.70 a yard, today is over \$1 more.

You reap the benefit of this saving, but we advise you to **MAKE AN EARLY INSPECTION** of these garments, because the quantities are limited and the values can not be replaced in **ALL-WOOLEN** materials this Fall.

The best of makers sent in these dresses only a few days ago, and were we to re-order them it could be only on the basis of selling them for from \$4 to \$6 more.

Friday, November 1, 1918.

What Republicans resent is the persistent efforts of democratic leaders to read into the attitude of republicans toward this war the democratic attitude toward Lincoln in the Civil War, and McKinley in the Spanish American war.

Republicans have not only supported the war, but on the major measures for its prosecution they took charge of the legislature in opposition to democratic leaders. This did not confine itself to leaders but the vote on the measure for raising an army stood:

Republicans 201
Democrats 191
Independents 5

The votes against the measure:

Republicans 8
Democrats 16

including Randall and Landon, both of whom have trained with the democrats.

On measures designed to supply the means for the prosecution of the war, the bond bills and the revenue bills, republicans cast larger percentages than the democrats. In the recent man-power bill, the republicans again had to take the lead and carried the measure to final success.

Although the democrats have had at least ten more votes in congress than the republicans on eight of the

war measures, including both man-power bills, the republicans cast more votes than the democrats. In 26 of them not a republican vote was cast against the measure, and in all of them the republicans cast almost their full strength.

In sharp contrast with this position, the democrats in the Civil war studiously planned to block Mr. Lincoln at every turn. They openly opposed the war at the outset. The senators and representatives from eleven states withdrew to join the rebellion. Those democrats hailing from the states not in rebellion, save a notable few, openly obstructed measures designed to vigorously prosecute the war.

The Morrill bill, designed to collect necessary revenue to supply the funds to prosecute the war, was violently opposed by the democrats in both house and senate. The legal tender act, designed to increase the circulating medium, was resisted by a united democracy. The vote stood in the house 93 for, all republicans; 59 against, including all the democrats who voted. The next great war measure was the national bank act, which was again resisted by every democrat in the senate but three. The vote in the house stood 78 yeas and 64 nays, almost a strict party vote. These three outstanding war measures, and without which the war could not have been successfully waged, were violently opposed in debate and almost solidly resisted in vote by the democratic members in each branch of congress. The same is true of the emancipation issue, and the questions growing out of the slavery question.

The democratic official opinion on the war announced in the National convention of 1864. The chairman of the democratic national committee, August Belmont, in opening the convention said: "Four years of misrule by a sectional, fanatical, and corrupt party have brought our country to the verge of ruin. The past and present are sufficient warning of the disastrous consequences which would befall us if Mr. Lincoln's election should be made possible by our want of patriotism. The inevitable results of such a calamity must be the utter disintegration of our whole political and social sys-

tem amid bloodshed and anarchy."

Horatio Seymour, the chairman of the committee, declared: "Four years ago a convention met in this city when our country was peaceful, prosperous and united. Its delegates did not mean to destroy our government, to overwhelm us with debt or to drench our land in blood; but they were animated by intolerance and fanaticism, and blinded by an ignorance of the spirit of our institutions, the character of our people, and the condition of our land. They thought they might safely indulge their passions, and they concluded to do so."

In the democratic platform of 1864 appears:

"Resolved, That this convention does explicitly declare, as the sense of the American people, that after four years of failure to restore the Union by the experiment of war, during which, under the pretense of a military necessity, or war power higher than the constitution, the constitution itself has been disregarded in every part, and public liberty and private right alike trodden down, and the material prosperity of the country essentially impaired—justice, humanity, liberty, and the public welfare demand that immediate efforts be made for a cessation of hostilities, with a view to the ultimate convention of states, or other peaceable means to the end that, at the earliest practicable moment, peace may be restored on the basis of the Federal Union of the States".

Here are some of the reasons for Lincoln's desire for a republican congress. No such grounds can exist, for President Wilson to desire a democratic congress, and any attempt to ascribe Lincoln's reasons to the present situation is a deceptive effort for partisan purposes.

Under the strangle hold of the solid south, which completely dominates the rest of the country, maximum prices of the great staple products of the North have been fixed absolutely by congress: prices of cotton, the great staple products of the south, unregulated and unfixed—have been limited only by the national necessities and our ability to pay.

Do the American people believe when they give solemn and fair consideration to past events, that Mr. Wilson and the democratic party are now capable of intelligent leadership—capable of properly interpreting the aspirations of our country in war or peace? Let them judge impartially by phrases which Mr. Wilson and the democratic party have invented from time to time, to voice what they obviously believed to be

the expression of the highest statesmanship—watchful, waiting, strict accountability, neutral even in thought, too proud to fight, peace without victory, he kept us out of war, force without stint or limit, politics adjourned and politics convened?

General of American Expeditionary Forces**

ONE DIED FROM DISEASE

Washington, Nov. 1.—The following casualties are reported today by the Commanding General of the American Expeditionary forces including 461 names, of which there are 17 killed in action; 11 died from wounds; 26 died from diseases; 1 died from airplane accidents; 182 wounded (degree undetermined); 113 wounded severely; 260 wounded slightly; 31 missing in action.

There are nine Hoosiers listed in the casualty list today from the War department as follows:

Wounded (degree undetermined)
—Sergt. Martin E. Hammond, Ft. Wayne; Private Philip G. Hagne, Indianapolis; Private Thomas Mattheas, Richmond.

Died from disease—Private Claude Toby, Perryville.

Wounded severely—Private Jacob Winkler, Mount Vernon; Private Arthur Fox, Newcastle; Private George Hertel, Brookville.

Wounded slightly—Private Stanley H. Bartlett, Heltonville; Private Dean F. Goss, Gosport.

Three solid trainloads of potatoes from Northern Maine and New Brunswick recently arrived in Boston to be shipped to the West Indies. In the three trains there were 128 cars.

Don't Get Hung Up With an Acid Stomach

**It's Just Acidity
That Makes Millions
Sick and Suffer**

It's true. There are millions of people all over the land who are weak, nervous, all tired and dragged out, who are trying to build up their jaded nerves and weakened bodies with drugs and stimulants; and many of them also EAT and EAT—but fail to get anywhere near the full amount of strength and nourishment out of their food. Why? Simply because of too much acid in the stomach—super-acidity.

Get rid of the excess acid. Your stomach is all right—just give it a chance to work easily and naturally. Then somehow good will feel yourself comes back, and your blood warms up!

A new method—truly a wonderful discovery called

EATONIC

FOR YOUR STOMACH'S SAKE

is positively guaranteed to clear the excess acid out of your stomach and bowels.

It is made in the form of pleasant-tasting tablets—hardly to carry around with you.

Get a big box of EATONIC at any drug store and see how quickly it banishes the immediate effects of acid-stomach. Away with heartburn, burping, food repeating, indigestion, etc., and then see how your general health improves.

So again we tell you—just sit upon it—if you are ailing get a big box EATONIC from your druggist today. The cost is a trifle—only 50¢.

You have faith in your druggist. He authorizes him to absolutely guarantee EATONIC to you and you can trust him. If EATONIC fails in any way, take it back—he will refund your money.

If your druggist does not keep EATONIC, drop us a postal card and we will send you a free copy. Address: H. L. Eaton Co., President, Eaton Company, 56, Wabash Ave., Chicago, Ill.

REALTY TRADE FOR LAST PERIOD GOOD

Considerations Given in Transfer
Records Reveal \$112,911.50
Changed Hands

THE LAST HALF OF OCTOBER

Largest Single Land Sale Amounts
To \$17,500. Which is Paid For
160-Acre Farm

The real estate business was exceptionally good in Rush county the last half of October, according to the transfer records in the county recorder's office. Total considerations mentioned amounted to \$112,911.50.

The largest sale of the period was \$17,500, which sum was paid for a farm of 160 acres in Washington township. Another farm of about a hundred acres in Richland township sold for \$17,062.50. The transfers for the period were as follows:

John W. Ramey to John W. and Minnie W. Bandrant, Lot 48 in, McMahan and Foster's addition to Rushville, \$1, and to correct title. Joseph M. Farlow to John C. Power the undivided one-half interest in 50 acres in Anderson twp., \$6000.

Samuel W. and Amanda J. Matthews to John G. Hammond, part or lot 19 in the original plat of Milroy, \$1000.

John G. and Jessie Hammond to James H. Spilman, part of lot 19 in the original plat of Milroy, \$2500.

Albert C. and Myrtle J. Kennedy to Harry Kennedy interest in lot 72 in H. G. Sexton's Heirs add to Rushville, \$1.

William Cowan et al. to John W. Davis undivided 3/4 of 130 acres in Richland twp., \$17,062.50.

Anna M. Cowan, guardian of John M. Cowan to J. W. Davis, undivided 1/4 of 130 acres in Richland twp., \$5,687.50.

NEW BLOOD NEEDED

After the grippe, influenza or other serious illness, the body needs help to regain the health and strength sacrificed by the disease. The blood first of all must be purified and revitalized. For this purpose physicians know of no more efficient body builders than Iron, Nux Vomica, Gentian, Capsicum and Zinc Phosphate in some form.

In many preparations, however, the Iron causes constipation, but in Chase's Blood and Nerve Tablets, which contain all of these tonics, this is overcome by the addition of Alein.

The system, therefore, gets all the benefits of the Iron and other body builders without any unpleasant after effects. Health and strength quickly return and pure, healthy blood is soon circulating through the body.

Each dose means more vim, vitality, and strength. Weigh yourself before taking and watch the result.

Dr. Chase's Blood and Nerve Tablets are sold by nearly all druggists at sixty cents a box. Special strength ninety cents.—Adv.

Forget Your Feet

FIRST HUN HELMET

RECEIVED BY MAIL

Miss Gertrude Wilkinson is in Receipt of Two Unique Trophies Of War

SENT BY SERGEANT EISCH.

Miss Gertrude Wilkinson is in receipt of a German helmet which is thought to be the first one ever received through the local postoffice. It was sent by Sergt. Andrew Eisich, of Menasha, Wisconsin, who took the German prisoner July 17.

Sergeant Eisich was with General Pershing in Mexico and went overseas on the same boat with him. He acts as interpreter when Germans are taken prisoners.

Miss Wilkinson has also received a German shoulder strap taken from an officer. It is very wide, gray in color and has the number "36" in bright red on it.

Sergeant Eisich has been severely wounded several times and is now in a Paris hospital. He was a private when sent to France, has been made sergeant and since recommended for a second lieutenancy.

Pulverized peat is being used by the Swedish railroads for fuel with success.

First, call a physician.
Immediately commence the "emergency" treatment.
VICKS VAPORUB

NEW PRICES—30c, 60c, \$1.20

ALL WRONG

The Mistake is Made by Rushville Citizens.

Look for the cause of backache. To be cured you must know the cause.

If it's weak kidneys you must set the kidneys working right.

A Rushville resident tells you how.

Frank McFarland, 830 W. Tenth St., says: "My kidneys began to get weak and in a short time I was so bad off I could hardly get about. My back was in a terrible shape. It ached so, especially at night that I could hardly sleep. Mornings my back was so stiff that when I bent over, I could hardly straighten again. The kidney secretions were too frequent in passage and highly colored. Another of the family had used Doan's Kidney Pills with such good results, I thought I would try them, so I got a box at Johnson's Drug Store. They helped me right away and I kept on using them until I was cured."

Price \$1.00 at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McFarland had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—Adv.

Why the Small Loan Business Is Essential

Men in all walks of life find it necessary to borrow money. The capitalist calls upon the banker, the manufacturer could not operate successfully without an established banking credit, the merchant must have money beyond his capital to meet his obligations, likewise the industrial worker is called upon to meet some unusual and unexpected expense and must find some source of relief.

Banks and trust companies do not seek the small borrower and as the average industrial worker has no bankable security, his credit is limited and the thought of applying to a friend is repulsive. He is honest and will pay every obligation. He realizes that a bank will not lend money on the class of security which he has to offer. The Industrial Licensed Lender makes a specialty of small loans upon the security which he possesses.

The fact that twenty or more states have in recent years passed laws, legalizing, regulating and supervising the business of lending money in small amounts on classes of security not acceptable at the banks, establishes beyond a question that the small loan business is a necessary institution and especially is this true when these laws have been passed not as political measures but as the result of the efforts of public welfare, business men and commercial organizations who have made the problem of the industrial worker a special study and whose only object in seeking legislation was a sincere desire to improve the condition of the industrial worker and give him a place where temporary financial assistance could be secured with safety.

Due to the high cost of living, the income of many families has not been sufficient to meet the obligations that must be taken care of. Some provision must be made to take care of those obligations until the regular normal income is restored.

The Small Loan Business renders an indispensable service along this line and provides a place where the industrial worker may obtain financial assistance.

In Indiana every legitimate Loan Company has a license which is displayed in their office. When making an application ask to see their license and membership certificate of the Indiana Association of Licensed Small Loan Brokers, which will be a guarantee that all loans will be made strictly in accordance with the Laws of Indiana.

Our Service Department was established for your benefit and any suggestion for the betterment of the Small Loan Business will be cheerfully received. Address

SOUR STOMACH

Mi-o-na Puts the Stomach in Fine Shape in Five Minutes.

If your stomach is continually kicking up a disturbance; you feel bloated and distressed; if you belch gas and sour food into the mouth, then you need Mi-o-na Stomach Tablets.

Mi-o-na stomach tablets give instant relief, of course, but they do more; they drive out the poisonous gases that cause fermentation of food and thoroughly clean, renovate and strengthen the stomach so that it can readily digest food without artificial aid.

Mi-o-na stomach tablets are guaranteed to end indigestion, acute or chronic or money back. This means that nervousness, dizziness and biliousness will disappear. Druggists everywhere and Johnson's drug store sell Mi-o-na.—Adv.

THREE ARRESTED FOR BRINGING IN LIQUOR

Preliminary Hearing For Jesse Guire,
Albert Sorrell and John Vanatta
Next Friday

HAD 8 QUARTS, POLICE SAY

Albert Sorrell, Jesse Guire and John Vanatta, who were arrested last night when they got off a C. I. & W. train from the east, charged with the unlawful possession of intoxicating liquor, will be given a hearing before Mayor Irvin next Friday. The preliminary hearing was set for one o'clock this afternoon, but was continued for a week on the motion of the state. All three men were allowed to go on their own recognizance.

Sorrell, Guire and Vanatta were taken into custody by the police when they alighted from the 9:15 train and taken to jail. The police say that the three men had eight quarts of whiskey. It is presumed that they had been to Hamilton, O.

HALLOWEEN GETS SOME RECOGNITION

Youngsters Put on False Faces And
Some of the Customary Pranks
Are Played.

VERY LITTLE DAMAGE DONE

The absence of the usual social events was the only thing which made last night seem different from any other Hallowe'en. Customary Hallowe'en parties were not held because of the order preventing any public gatherings due to epidemic of Spanish influenza. Masqueraders made merry, according to the custom of scores of years, and boys played their usual pranks, frightening people with "tick-tacks" and other noise-making devices.

Very little property was destroyed. This method of celebrating Hallowe'en is decreasing each year, much to the satisfaction of nearly everyone. Some boys, however, felt that Hallowe'en should not be allowed to pass without the usual pranks being played. Evidence of this spirit was seen in the Graham school building yard this morning. A big wagon was placed in front of the west entrance to the building. The crowd on the streets was not as large as in former years, but there were enough youngsters masked, so that the occasion did not pass without some recognition.

BIG REDUCTIONS IN 1918 TAX RATES

Next Year's Levy is Lower in Every
Township in the County With
One Exception.

COUNTY TAX DOWN FIVE CENTS

Increase of Ten Cents in Rushville
School Levy More Than Offsets
Other Reductions.

The tax rate for next year has been reduced in every township in the county, except one, according to the tax sheet prepared for 1918 in the county auditor's office.

There are several things to account for this unusual reduction. The county council reduced the county tax five cents, it will be remembered, which offsets the rate of every township and corporation in the county. The council also lowered the flood bond tax from three cents to one cent and nine mills.

The largest single item which contributed to the reduction of the tax rates in the townships, was the turning back of the surplus of \$40,000 in the gravel road fund, which has been accumulating for four or five years. The surplus was pro-rated back to the townships to which it belonged.

The Glenwood tax rate was increased sixteen cents and the Rushville city rates will be two cents higher next year. The city council here left the city levy the same, reducing the rate on bonds one cent and adding one cent to the levy for street oiling. An increase by the city school board of five cents on the tuition tax and five cents on the special school fund tax offset the reductions made by the county and township and is responsible for the increase of two cents. Next year's rate at Carthage, the only other corporation in the county, is twelve cents lower. The 1917 and 1918 rates for each division and the reductions are as follows:

	1918	1917	Reduc
Carthage	\$3.62	\$3.74	.12
Ripley	2.27	2.50	.23
Posey	2.30	2.53	.23

ANSWER TO INQUIRIES ON SHIPPING PARCEL

War Department Arranges to Distribute Xmas Labels to Soldiers Before Embarking.

GET BOXES AT RED CROSS

In answer to many inquiries occasioned by the Red Cross part in the shipping of Christmas parcels to soldiers overseas, Lake Division Red Cross Headquarters is today able to announce for the information of its organizations:

That the War Department has arranged to distribute Christmas parcel labels to men now embarking for service overseas. Men abroad have been given one Christmas parcel label to be returned to friends or relatives in this country. The friends and relatives who receive the labels

Women all over the world realize more and more that their work at home will help the men at the Front. It involves great sacrifices, hard work and unusual physical strength. Women at home should study nursing for war and for the home. A good way to learn is to ask your druggist for a copy or send 50c to publishers of the "Medical Adviser," 663 Main St., Buffalo, N. Y., and get a copy of their 1,000 page book bound in cloth, with chapters on First Aid, Taking Care of the Sick or Wounded, Physiology, Hygiene, Anatomy, Sex Problems, Mother and Babe. Nobody, man or woman, can do good work when health is impaired. If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a tonic made up of herbs, and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Send Dr. Pierce, Buffalo, N. Y., 10 cents for trial package.

Kokomo, Ind.—"I can say something for Dr. Pierce's Favorite Prescription. I suffered from nervousness and general run-down condition. I lost my appetite and the doctors did not seem to help me. I had one of Dr. Pierce's Common-Sense Medical Advisers in the house for about seven years and I started to read it. I found that 'Favorite Prescription' was what I needed and thought I would try it. It helped me in many ways and kept up my system. I started to improve and feel better. It gave me the strength to do work that I had not been able to do for some time previous. I can recommend the 'Prescription' to others."

Mrs. J. A. McGee, 821 E. Taylor St.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur, It
Brings Back Its Beautiful
Lustre at Once.

Gray hair, however handsome, does not advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades turns gray and looks streaked just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young. Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

CHIROPRACTIC

The ONLY science ever discovered for eradication of disease by going directly to the cause.

If your case is chronic and have tried everything else without satisfactory results, why not investigate?

are to secure from the Red Cross, after Nov. 1, small cartons in which to ship Christmas parcels abroad. The Red Cross has also been designated to inspect the contents of all such parcels and to assist the post office in getting the shipments ready to go overseas.

As no Christmas parcels can be accepted without the official addressed label, issued by the War Department, many friends and relatives of men just going overseas, or about to go, have been fearful that the parcel labels would not be forthcoming for the gifts of these men.

"Our information to the effect that the War Department has not forgotten to provide Christmas parcel labels for soldiers not yet abroad should set at rest the fear of friends and relatives that their boys will not receive Christmas parcels," said Frank E. Abbott, assistant director of the division.

800 WOMEN NEEDED BY SALVATION ARMY

Commander Evangeline Booth
Says War Relief Work
Must Be Extended.

Commander Evangeline Booth, leader of the Salvation Army in the United States, has been suddenly called upon to furnish 800 additional war work women for France. The request is contained in a report just received by her from Col. William A. Barker of the Salvationist forces, whom she sent to France over a year ago to establish butment and general war relief work with the American troops.

"We will do all we can to fill this demand," said Commander Booth when discussing the approaching United War Work Campaign, "and the need itself should impress the American public all the more with the absolute necessity for sustaining and enlarging the war relief work of the seven organizations, besides the noble Red Cross, now merged for a drive for funds. Each is a vital cog in a vast machine for human relief, and each is indispensable, serving its particular elements in its own way.

"The Salvation Army was born in hardship, reared in privation and trained to every phase of human misery and how to cope with it. Perhaps that accounts in some degree for the success our work has attained and for which we are thankful.

"We are of the common people, and we tell on a practical basis. We learned the lesson of how to do it in the Boer war, when we stood at the side of Britain's troops and weathered it out to the end. We have been tried by fire, and the mothers and fathers of America, as in other countries, trust the Salvation Army to do the thing they would like to do for their men if they had the chance.

"With 1,210 trained workers at the front, operating from 420 bunks and dugouts, the Salvation Army is doing, has done and will continue to do its best for the cause of humanity and Liberty."

CURE FOR BLUES NEAR THE CAMPS

Community Service Takes Place
of Mother, Friends and
Home for Soldiers.

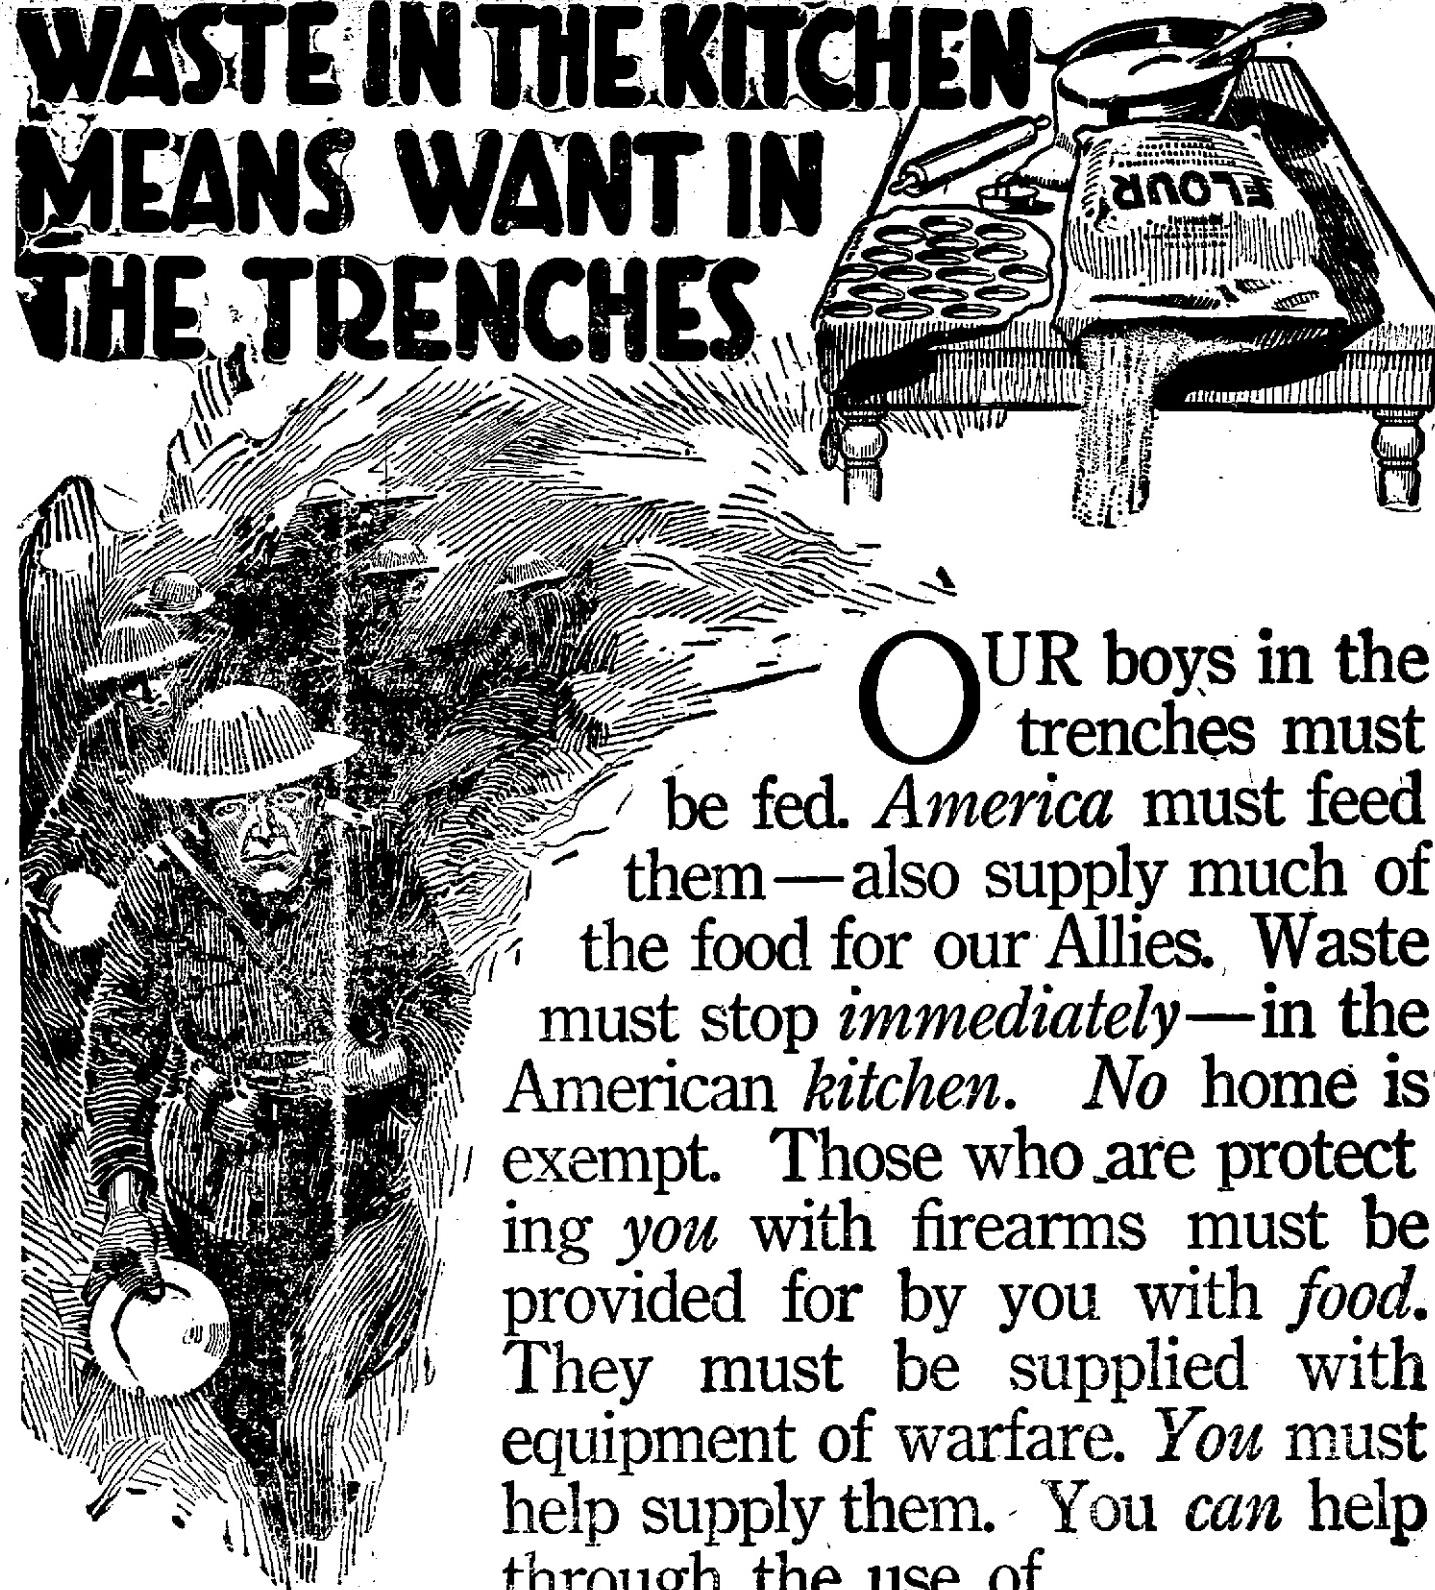

Ten young officers of the Student Army Training Corps of the University of Detroit recently applied for a furnished house and a housekeeper who would not be a servant, but, as one young officer expressed it, "the sort of woman to whom the boys can call out 'Hello, mother!' when they come in the front door."

Homesickness is the malady for which War Camp Community Service supplies innumerable cures.

"We've got your number," says the W. C. C. S. to the homesick boy from camp with leisure to spend in any one of the three hundred towns scattered over the country. While he's wondering what on earth he'll do with himself when he gets there, not knowing a soul in town and with a limited percentage of his "thirty per" in his pocket, along comes a friendly printed card from the local branch of his own lodge announcing a reception that night especially for soldier members. By the same mail the Methodist church sends an announcement of all its meetings, addressed to him, with This Means You printed at the bottom. How did they know he was a Methodist?

He had forgotten about the little "Personal Card" he made out at the adjutant's request during his first day in camp when it was only one of the endless details in the round of dentists and doctors and general confusion. The W. C. C. S. had not only his number, but his name and address, his home town, the name of the school he'd gone to and a good bit about the things he was fondest of doing—each fact written into a little blank on the card especially for it.

WASTE IN THE KITCHEN MEANS WANT IN THE TRENCHES

OUR boys in the trenches must be fed. America must feed them—also supply much of the food for our Allies. Waste must stop *immediately*—in the American kitchen. No home is exempt. Those who are protecting you with firearms must be provided for by you with food. They must be supplied with equipment of warfare. You must help supply them. You *can* help through the use of

CALUMET BAKING POWDER

You save wheat—you save money
—you save baking materials. You
save enough on a pound alone over
the price of Trust brands to buy a
25c Thrift Stamp.

Then you save when you use it—
by using but half the amount of
ordinary powders.

Finally, you save baking ingre-
dients. No loss. Never fails.

Most economical and reliable bak-
ing powder.

Used in the Army and Navy.
Should be used by every housewife
who wants to help the Army and
Navy win the war.

Money Back Guarantee

If Calumet does not prove a big saving—is not satisfactory—and is not all we claim for it, your grocer will refund your money.

If you have never used Calumet you cannot afford to wait another

day. Get a can at once and be convinced of the merit of this wonderful baking powder.

Save wheat. Stop waste. A small thing to do for those who are offering their *all* for you.

SEND FOR FREE CALUMET WAR-TIME RECIPE BOOK

It contains scores of selected recipes that will help you greatly in the use of corn and other coarse flours.

GIVES SWEET CHOW STICKS TO YANKEES

Red Cross Provides 1,000,000 Bars
Of Chocolate For American Sol-
diers In England.

ARE OF GREAT VALUE

(By United Press.)
London, Oct. 2. (By Mail.)—Yankee soldiers in England have begun

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

Chamberlain's Tablets

TANKAGE FEED IS PROFITABLE

HOGS!

MEANS SAVING OF CORN IN
PUTTING THE POUNDS ON
MR. PORKER QUICKLY.

By J. R. WILEY
Swine Specialist, Purdue Extension
Department.

Eighty-three and a half per cent of the cost of producing a hog is feed that is consumed, according to data recently obtained by the farm management department at Illinois University. This is a much higher percentage for feed than is the case with dairy cattle or beef cattle. So the biggest problem that we have in pork production is to handle our feeds in such a way that they return the maximum amount of grain. Especially during wartimes, when increased production of food necessities is so vital to our success, is it imperative that we make the most economical use possible of the feeds utilized for hogs. We must study to produce 100 pounds of pork with the smallest possible amount of feed.

The biggest opportunity for feed economy is in using balanced rations. We have talked balanced rations for a long time and yet no question has been asked us more frequently this summer: "Does it pay to feed high-priced tankage or other protein supplements to hogs?"

Ordinarily the farmer figures that he is getting a good pork return from corn alone if he obtains ten pounds of gain for each bushel of corn which he feeds. This means that the farmer who feeds corn alone calculates on feeding 560 pounds of corn for every 100 pounds of gain made by his hogs. Experimental work made at the various stations show that the farmer is about right in this estimate. If the hogs were given an opportunity to eat what tankage they want with the self-feeder along with the corn, they will consume about thirty pounds of tankage and 400 pounds of shelled corn for each 100 pounds increase in weight.

How Corn is Saved.

This means that there is a saving of 160 pounds of corn from feeding thirty pounds of 60 per cent tankage in comparison to feeding corn alone.

In September it cost about \$1.50 to \$1.55 a bushel for corn, or \$55 a ton and tankage retailed in small lots to farmers at about \$110 per ton, so the farmer is paying twice as much a pound for tankage as the corn costs him, or thirty pounds of tankage cost as much as sixty pounds of corn. This still leaves a net corn profit from the buying and feeding of tankage amounting to 100 pounds for every 100 pounds of pork produced. In other words, for every \$1 invested in tankage the farmer receives about \$3.50.

Make More Money on Them!

We Sell the BEST 60% Tankage

J. P.
FRAZEE

eating 1,100,000 chocolate bars that recently arrived at a British port.

The bars are given out gratis by the American Red Cross, which has contracted for the entire output of a big American factory. The bars are a new type.

Each bar is enclosed in a wrapper decorated with the American flag and the Red Cross emblem, and inside is a small card which says: "Chocolate wheat bar: Compliments of American Red Cross Canteen Department." This is presented to you as a token of our appreciation of the great ser-

vice you are rendering our country.

This bar is a well-balanced emergency ration, consisting of four highly nutritious foods—chocolate, wheat, nuts and raisins. Each bar equals in food value any of the following: two lamb chops; two eggs; two plates clam chowder; one big glass of milk; two baked potatoes; three apples; two ordinary cups of custard or two helpings of beans."

GELATINE CLASSIFIED AS SUGAR ALLOTMENT

Announced By U. S. Food Adminis-
tration Gelatine Preparations Are
Used For Hospitals

SERVE SICK IN INSTITUTION

Announcement is made by the United States Food Administration that gelatine preparations, where used for hospitals and similar institutions, have been placed in the essential class for sugar allotment, owing to their importance in the hospital dietary.

Manufacturers of such products who will agree to supply hospitals only will be allotted such sugar as required for this supply, the requirement being made that each container be properly labelled in order that hospital officials may be informed that, in the interest of sugar conservation, gelatine preparations should be served only to the sick in the institutions, and not to nurses, orderlies and other employees. The label on the gelatine containers should read as follows:

"Contents of this package manufactured under permit from the United States Food Administration solely for use in hospitals in feeding sick and convalescent persons."

"KEWIE" IS RARE BIRD IN UNCLE SAM'S ARMY

(By United Press.)

With The American Army In France, Sept. 12. (By Mail.)—There are birds and birds among American birdmen along the front. One is a rare specimen, the "kewie bird".

A "kewie bird" is a chap who flies little, but always comes back with a tale of terrible fighting whenever he gets into his machine.

"We call such flyers kewie birds", explained one of the real birdmen who never talks of himself, "because the kewie is a bird inhabiting the shores of Newfoundland. It always flaps its wings and squawks a lot but never rises from the earth."

A man never remains a "kewie" long among Uncle Sam's flyers. They won't stand for the "kewie's squawks." The "kewie" is soon "ridden to death" with derision, and ceases his talk.

There are seldom "kewies" in the aviation camps, especially among the men who fly much. Most aviators are modest to the extent of being bashful, and while they will always tell what the other fellow did, their own experiences can be hardly pried out of them.

They'd rather be shot down by a boche than be a "kewie bird".

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or
Bladder troubles you—Salts is
fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

WILL REPRESENT SAVING IN SUGAR

New Ruling That no Person Shall
Have More Than Two Pounds a
Month to be Beneficial

FIGURED 4 WEEKS TO A MONTH

Approximately 200,000,000 pounds of sugar will be saved per year by a new ruling of the Food Administration which will prevent any one from obtaining more than two pounds of sugar per month.

Many people were unconsciously breaking the regulation regarding the distribution of sugar by purchasing their sugar on the basis of one-half pound per capita per week. On this basis of four weeks to the month there would be only forty-eight weeks to the year, or three hundred and thirty-six days. This

would leave twenty-nine days, or practically another month during which sugar would be consumed on a basis of two pounds per capita.

With a population of 100,000,000 people this would require about an additional 200,000,000 pounds of sugar.

The new regulation which becomes effective October 15 requires the consumer to purchase his allotment of sugar every 15 days or semi-monthly, rather than every week.

GET AFTER THAT COLD RIGHT NOW

Got right after it with a
bottle of Dr. King's
New Discovery

She never let a cold or cold or case
of gripe go until it grew dangerous.
She just nipped it when she began to
sniffle or cough before it developed
seriously.

Men, women, and children of every
age have used this preparation for
fifty years as a prompt reliever. All
ages are using it today because of its
positive results.

Generous size bottles. 60c and \$1.20.

Constipation Corrected

Dr. King's New Life Pills tonight
mean clear bowels, a clear head, clear
thinking, a day well begun in the
morning, good digestion, clearing skin.
Mild in action but sure and comfortable.
At drug stores everywhere. 25c.

President Wilson

Makes a Fair Request

President Wilson makes the same request that was made for President McKinley—the same that was voiced by President Harrison and by Colonel Roosevelt. They said that to elect a congress of opposite political faith to the President might be taken in Europe as an indication that the country had repudiated the President's policies, and that it would retard peace negotiations with Spain.

This war is twenty times as important as that war, and President Wilson makes the same request that was made for President McKinley and granted to him by the people. Read part of what President Wilson says:

My Fellow Countrymen:

The Congressional elections are at hand. They occur in the most critical period our country has ever faced or is likely to face in our time. If you have approved of my leadership and wish me to continue to be your unembarrassed spokesman in affairs at home and abroad, I earnestly beg that you will express yourself unmistakably to that effect by returning a Democratic majority to both the Senate and House of Representatives."

Let Us Be Fair

Americans love fair play. Let us be just as fair with President Wilson as we were with President McKinley. Our President today is the leader of the world. His wisdom in this war has made the United States the greatest of all nations. The balance of the world has implicit faith in him and we should not shake that confidence by a failure to indorse him at the polls.

Harry G. Strickland is the candidate of the President's party for congress in the sixth district. He is a capable man, worthy in every way to represent this district.

VOTE FOR Strickland for Congress

HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES**7 A DAY FOR 7 DAYS**

A Vigorous, Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feron.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feron right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started, your money is waiting for you. It belongs to you, for the discoverer of Bio-feron doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feron, it is printed on every package. Here it is: Lecithin; Calcium Glycerophosphate; Iron Peptone; Manganese Peptone; Zinc Nitrate; Nux Vomica; Powd. Benzoin; Phenolphthalein; Clearesin Capsicum; Kola.

Mr. and Mrs. William Scott and family and James Hood motored to Greensburg Sunday and spent the day with Mr. and Mrs. Charles Hood and family.

ALBERT C. STEVENS

Candidate for

Prosecuting Attorney

65th Judicial Circuit Rush County

On account of the duties of the office of prosecuting attorney, giving my aid in the filling out of questionnaires, and the fact that I have been sick with influenza for the past three weeks, I have been unable to make a personal canvass in the County.

If my manner of conducting the office has met with your approval and you feel kindly disposed toward me personally, I shall appreciate your support in the coming election. And, anyway, whatever the outcome may be, I shall feel as kindly toward you in the future as I have in the past.

Very truly yours,

ALBERT C. STEVENS.

For SHERIFF of Rush County

Being unable to be away from my business it will be impossible to see all the voters personally. Would appreciate your vote or any assistance you may be able to render.

M. F. LOVETT, Clerk.

Marshall Green**EACH HAS MISSION
IN THE WORLD WAR**

Continued from Page One
is \$5,000,000 and Rush county's is \$40,000.

The Young Men's Christian Association, which is asking \$100,000,000 for its war work, is serving no less than 3,000,000 American soldiers and sailors in Europe and in the training camps at home. It has between five and six hundred huts in this country and a greater and growing number on the other side. It is keeping a bit of home even at the trenches and under the fire of the enemy. The Y. M. C. A. hut at the front is the soldier's club, his church, his college. It is open to all denominations for service, from the early mass of the Roman Catholic to the later service, of the Protestant clergyman and the Jewish Rabbi, and the song service of the Salvation Army. It is used for musical and theatrical entertainments by the most famous actors and actresses of the world.

The Young Women's Christian Association, asking for \$15,000,000 has gone into the war and into the war industries with the women and girls called to new perilous work. It has co-operated with the government in the proper housing and care of the women munition makers in this country and has provided recreation centers at all of the twenty-one cantonments. It has established similar centers at munition plants in France and has been so successful in providing necessary rest and recreation that the English government has asked the help of the American Y. W. C. A. in work of that character in England.

The National Catholic War Council, including the Knights of Columbus, asks \$30,000,000. The Knights of Columbus have erected club houses at the points of embarkation in this country and debarkation in France, and have secretaries assigned to permanent duty aboard transports plying between this country and European ports. One hundred K. of C. secretaries have been ordered to Italy, where ten buildings are being erected. There is a headquarters building in Paris and permanent club houses throughout France and in London. A fleet of motor trucks follows the rapidly advancing armies to provide our soldiers with "service under fire."

The Jewish Welfare Board, which will receive a \$3,500,000 share in the United War Work Campaign, officially represents all national Jewish organizations in building up the morale of more than one hundred thousand Jewish men in the army and navy.

It has sent its trained workers into the camps and naval training stations. It has erected clubrooms to which soldiers, irrespective of race, can go for rest or for entertainment, where there are libraries with English, Yiddish, and Hebrew books, where religious services on Friday evenings and holidays are open to any man who wishes to attend.

The Library War Service of the American Library Association, which is asking for \$3,500,000, has sent overseas during the past year more than a million books for the men of the fighting forces. It supplies a book for the man when he wants to read and the kind of a book that he wants. It gives its service quickly

and directly to the army and furnishes to the soldier who is preparing for after the war the technical books that he needs for his study.

In the hut and canteens of all the welfare organizations a branch library has been established, at which the soldier or sailor can pick up in his hour off duty the novel or magazine that suits his fancy. There is a deck library on every transport and on many of the war ships and government cargo ships. In every ward of every military hospital a shelf of books is near the hand of the convalescent soldier.

The War Camp Community Service, which is asking \$15,000,000, is a nation-wide movement for hospitality keyed to harmonize with the training camp program of the War and Navy Departments. It has a definite, ordered program, supplemented by resources of the folks back home. It invites the soldier and sailor off duty in a strange town to dine and dance and meet the right sort of women.

It counteracts the red light lure with the greater attraction of wholesome recreation and speeds the man in khaki or blue on his overseas way with a keener enthusiasm to fight for a country in which he leaves no bitter, regretful memories.

The Salvation Army's request for its work at home and abroad is \$3,500,000. As near the trenches as relief work can be carried, the Salvation Army "hutment", is open, and a woman officer ready to serve hot food to the men under fire. A cook stove with an oven that can bake is certain to be part of the equipment of the little Salvation Army house, in front of it, "lassies," with baskets of food have stood under fire in order to give a hot cup of coffee to the men who are bringing up the ammunition. Truck loads of pies and doughnuts start daily from the bases to the end of the lines. The women officers have mended the clothing and darned the stockings of the soldiers who come to the hutment for recreation. In this country, the Salvation Army maintains hotels near the military and naval bases.
